Statement

General

SET OUT YEAR AND LEAF YEAR
The SET OUT YEAR for APH reporting purposes is the actual calendar year for acreage planted before July 1st. For acreage planted on or after July 1st, the SET OUT YEAR shall be the year following the calendar year in which set out actually occurred.

To determine LEAF YEAR subtract the set out year from the calendar year of insurance (or APH crop year for the yield substitution purposes), then add one year.

In lieu of the second sentence of Section 24(a) of the Basic Provisions, for the purpose of premium amounts owed to us or administrative fees owed to FCIC, interest will start to accrue on the first day of the month following the issuance of the notice by us, provided that a minimum of 30 days have passed from the premium billing date specified in the Special Provisions.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Practice

*4 Acreage and production history from certified organic or transitional acreage will be contained in separate APH databases. Each APH database will include production and acreage from any applicable buffer zone. Any yearly average APH yields, for the most recent four crop years only, from the transitional acreage database will be used in place of Transitional Yields (T-yields) to establish the certified organic APH database. A variable T-yield will be used to complete the database, if required.

Date

END OF INSURANCE DATES:

TYPE	END OF INSURANCE DATES
Beauty Seedless, Perlette	July 15
Type "All Others" and types not specified in this section	July 31
Midnight Beauty	August 31
Scarlet Royal	October 15

Price

If a contract price is available as shown in the actuarial documents, you may elect to have your price election determined in accordance with the Contract Price Addendum (CPA). If the crop provisions or special provisions provide a method to determine a contract price your price election will be determined in accordance with the crop provisions or special provisions and the CPA does not apply.

Insurance Availability

Insurable age of vines: Fourth growing season after being set out. Third growing season after being grafted.

Any acreage that is interplanted with another perennial crop is insurable unless we inspect the acreage and determine that it does not meet the requirements contained in your policy.
