The map displays a grid of 30 numbered sections (1-30) and various geographical features. A red line runs diagonally from the top center to the bottom right. A green line runs horizontally across the middle, with a wavy black line below it. Blue lines represent water bodies: Pond Creek, Smart Ditch, and Muscatine River. Black lines represent roads, including County Road 200 E and County Road 600 S. A circled '39' is on the red line. Three green 'A' markers are placed in sections 19, 21, and 25.
