Notes:

1. A Type 10 record is required for acceptance of the Type 9 record. The type 9 record must pass all edits to establish fund designation.
2. If the Sales Closing Date used for **New** policy fund designations varies by Plan, Type or Practice, the DAS lookup will use them to determine the Sales Closing Date if submitted, otherwise DAS will use the earliest Sales Closing Date for the county/crop/plan code to establish the fund cutoff date for **New** policies.

For carryover policies, the earliest Sales Closing Date for Assigned Risk will be used to establish the fund cutoff date based on crop/county only.

For Carryover policies, the Contract Change Date for the county, crop and plan code will be used to establish the Developmental fund cut off date.

Seperate records for type and practice is not allowed for carryover policies except California Grapes (0053 & 0052) and Arizona Grapes (0052).

3. If the Fund Designation lock down date is later than the "normal" lockdown date due to: a written agreement, Fund Rule 3, a written agreement expiration date (field 27), written agreement number, written agreement type and written agreement processing flag are required.
4. Rate State and Rate County can only be different from Location State and County if a written agreement is in effect. ADM 3 lookup is based on Rate State Rate County.
5. Accepted Type 9 Records will be in the '.acp' and '.fun' output files.
