General Rules

High-Risk Land Exclusion Option (HRLE)	This option is applicable anywhere the high-risk land classification is provided in the actuarial documents. Insureds that elect the High-Risk Land Exclusion Option may insure high-risk land under a CAT policy. The CAT policy is considered a separate crop for administrative fee, unit division, added land, and all other insurance purposes.
LP Option	A Practice Code must be submitted on the P14 to elect separate coverage levels by irrigation practice when Insurance Option Code contains 'LP' (Coverage Level by Irrigation Practice option).
HB Option	<p>If a producer selects the "HB" Insurance Option Code, a separate Insurance In Force, P14 record must be submitted; one for the base policy and one for the HR-ACE policy.
