Release Date: 3/13/2025

Error Type Code	Applicable Crop Insurance Form	Error Type	Error Type Limited to Specific Plan	Definition
101	Acreage Report	Signature Date		(1) The AR was signed after the acreage reporting date and inspection to accept late signed AR were not followed; OR (2) the AR was not signed, and the insured was not provided with letter to confirm information is correct and binding. Also applies to late-signed livestock endorsements and target marketings.
102	Acreage Report	Authorized Signatures		AR was not properly signed by the insured or a person authorized to sign in accordance with the RMA guidelines found in the General Standards Handbook. Also applies to improperly signed livestock endorsements and target marketings.
103	Acreage Report	Written Agreement		Written Agreement terms were not followed for the insured crop.
104	Acreage Report	Practice/Type Match		The Practice/Type certified by insured for the insured crop doesn't match the Practice/Type planted.
105	Acreage Report	Practice/Type Insurability		The Practice/Type planted is not insurable and differs from the P/T on the AR certified by insured.
106	Acreage Report	Insurability requirements not met		Insurability requirements for the crop not met.
107	Acreage Report	Acres Reported		The number of reported acres and/or location used for unit division was not reported correctly.
108	Acreage Report	Land Classification		The land was not correctly classified as High Risk or Unrated.
109	Acreage Report	Planting Dates		Planting date certified on the AR form: (1) does not appear reasonable given the growing condition and stage of the crop (GSI determination only); OR (2) not keyed correctly in AIP systems.
110	Acreage Report	Share		The insured share is not correctly reported on the acreage report. Also applies to incorrectly reported share percent on livestock endorsements and target marketings.
111	Acreage Report	Unit Structure		Eligibility for unit structure not met.
112	Acreage Report	New Breaking insurability		New Breaking acres insurability requirements not met.
113	Acreage Report	Revised Acreage Report		The requirements to accept a revised acreage report were not met.
114	Acreage Report	Conservation Compliance		The producer did not sign an AD-1026 by the required date or is not in compliance with HELC and WC provisions. Also applies when a livestock producer is out of compliance, causing endorsement or target marketings to incur full premium.
115	Acreage Report	Point of Reference	RI policies	For RI policies, separate points of reference weren't provided for all non-contiguous and contiguous acres in a grid by crop and intended use on a map.
116	Acreage Report	Revised Farm Operation Report	Whole Farm policies	Errors in reporting any changes to commodities or expected revenue.
201	APH	Production Report Signature		(1) Person that signed was not authorized to sign; OR (2) APH was signed after the PRD.
202	APH	APH Yield Verification		Production on the APH database does not match exactly and is not within tolerance of the acceptable supporting production records.
203	APH	Production Records - Acceptability		Production records do not meet the requirements outlined in the CIH.
204	APH	Unit Structure		Production records do not support the eligibility requirements for the unit structure.
302	Application	Signature Date		The application was signed after the SCD date. Also applies to Livestock applications.
303	Application	Person Type		Incorrect person type certified on the Application/Contract Change/Transfer form. Required documentation not provided to support the entity certified. Also applies to Livestock applications.
304	Application	Signature type		Person that signed was not authorized to sign. Also applies to Livestock applications.
305	Application	Identification Number		Insured does not have insurable interest in the crop based on documentation provided by insured to support ID number. Also applies to Livestock applications.
