- 1 If the insured qualifies to use a CC "004" Approved Yield for the SF "005" Practice, do not duplicate APH databases. There must be a separate "P15"/"P15A" for the SF "005" and one for the CC "004" with valid Approved Yields submitted. T-yields, yield limitations and substitutions will apply appropriately by Practice. For the "P11", the Approved Yield field on the SF "005" record must reflect the CC Yield and the "P11" record MUST reference the CORRECT "P15" CC "004" records AIPYieldKey on that "P11". If the SF "P11" is one of the Organic Practice Codes, then the CC "P15" that is referenced must be to a corresponding Organic Practice CC "P15".
