General Rules					
High-Risk Land Exclusion Option (HRLEO)			This option is applicable anywhere the high-risk land classification is provided in the actuarial documents. Insureds that elect the High-Risk Land Exclusion Option may insure high-risk land under a CAT policy. The CAT policy is considered a separate crop for administrative fee, unit division, added land, and all other insurance purposes.		
LP Option			A Practice Code must be submitted on the "P14" to elect separate coverage levels by irrigation practice when Insurance Option Code contains LP (Coverage Level by Irrigation Practice option).		
HB Option			If a producer selects the HB Insurance Option Code, a separate "P14" record must be submitted; one for the Base policy and one for the HRLEO policy. When Insurance Option Code equals HB the insured cannot choose a CAT level coverage. When HRLEO is Plan 01 then non-HRLEO must be Plan "01", "02", or "03". When HRLEO is Plan "02" or "03" then non-HRLEO must be the same Plan "02" or "03" respectively. When HRLEO is Plan "31" then non-HRLEO must be Plan "31", "32", or "33". When HRLEO is Plan "32" or "33" then non-HRLEO must be the same Plan "32" or "33" respectively. When HRLEO is Plan "67", then non-HRLEO must be Plan "67", "68", or "69". When HRLEO is Plan "68" or "69", then non-HRLEO must be the same Plan "68" or "69" respectively. When HRLEO is Plan "87" then non-HRLEO must be Plan "87", "88", or "89". When HRLEO is Plan "88" or "89" then non-HRLEO must be the same Plan "88" or "89" respectively. When HRLEO is Plan "77" then non-HRLEO must be the same Plan "77" if both have Underlying/Base Plan "02".		
Area Risk Protection (04, 05, 06)			If a producer selects a different Coverage Level or Protection Factor by Type Code and Practice Code, a separate "P14" Insurance In force record must be submitted.
