Statement

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Type

*2 Insurable Varieties for Group B: All other varieties not specified in Group A.

Practice

*3 Acreage and production history from certified organic or transitional acreage will be contained in separate APH databases. Each APH database will include production and acreage from any applicable buffer zone. Any yearly average APH yields, for the most recent four crop years only, from the transitional acreage database will be used in place of Transitional Yields (T-yields) to establish the certified organic APH database. A variable T-yield will be used to complete the database, if required.

Date

The production reporting date for winter practice will be January 15, and the summer practice will be April 1.

*5 Insurance will attach only on potatoes planted during the period of July 1 - September 15.

*6 Insurance will attach only on potatoes planted during the period of November 15 - March 15.

*7 In lieu of section 6(a)(2) of the Basic Provisions, you must submit your acreage report on or before the acreage reporting date contained in these Special Provisions of Insurance.

Date: 8/20/2010 Plan: APH (90)

State: California (06)
County: Kern (029)

*8 Insurable variety for Group A: Russet.

Insurance Availability

Insurance will not attach to any acreage on which potatoes were planted the preceding year unless the land was properly fumigated according to approved Extension Service recommendations prior to planting potatoes.

In accordance with section 8 of the Basic Provisions, insurance shall not attach to varieties of the fingerling type, unless provided by written agreement.

Quality

With regard to Grade Inspections and the respective U.S. Grade Standard (i.e. Processing, Chipping, Seed and all other Potatoes), the only size modifications recognized are those instituted by State or Federal Marketing Orders.
