Statement

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Type

- *2 Insurable Varieties for Group B: All other varieties not specified in Group A.

Practice

- *3 Acreage and production history from certified organic or transitional acreage will be contained in separate APH databases. Each APH database will include production and acreage from any applicable buffer zone. Any yearly average APH yields, for the most recent four crop years only, from the transitional acreage database will be used in place of Transitional Yields (T-yields) to establish the certified organic APH database. A variable T-yield will be used to complete the database, if required.

Date

- *4 Insurance will attach only on potatoes planted during the period of December 1 - February 28.
- *5 In lieu of section 6(a)(2) of the Basic Provisions, you must submit your acreage report on or before the acreage reporting date contained in these Special Provisions of Insurance.
- *6 Insurable variety for Group A: Russet.

Quality

With regard to Grade Inspections and the respective U.S. Grade Standard (i.e. Processing, Chipping, Seed and all other Potatoes), the only size modifications recognized are those instituted by State or Federal Marketing Orders.
