<b>Type</b>		<b>Practice</b>		
No Type Specified 997		No Practice Specified (OC) 723 *4		
No Type Specified 997		No Practice Specified (OT) 724 *4		
No Type Specified 997		No Practice Specified 997		

#### Statement

##### General

The replant exclusion (RE) option factor is applicable to all producers who elect to waive their rights to replant payments provided by the policy. This election must be made on the application/policy change form by the sales closing date.

Direct seeded acreage will not be insurable.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

##### Practice

- \*4 Acreage and production history from certified organic or transitional acreage will be contained in separate APH databases. Each APH database will include production and acreage from any applicable buffer zone. Any yearly average APH yields, for the most recent four crop years only, from the transitional acreage database will be used in place of Transitional Yields (T-yields) to establish the certified organic APH database. A variable T-yield will be used to complete the database, if required.
