Statement

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

The Catastrophic Risk Protection endorsement (CAT coverage) is not available.

In accordance with the provisions for notice of loss and settlement of claim in the ARH Strawberry Pilot Crop Provisions, use the following table.

| California County | Planting Period | Picking Period(s) | Number of Pickings | Days Between Pickings | Percent Approved Yld / Picking | Month Percent of Approved Yield | Cumulative Percent |
|-------------------|-----------------|--------------------------|--------------------|-----------------------|--------------------------------|---------------------------------|--------------------|
| Fresno (019) | Summer Planted | October 10 - October 31 | 4 | 4 | 0.4 | 1.6 | 1.6 |
| | | November 1 - November 30 | 6 | 4 | 0.4 | 2.4 | 4.0 |
| | | April 1 - April 30 | 6 | 4 | 4.9 | 29.4 | 33.4 |
| | | May 1 - May 31 | 6 | 4 | 6.2 | 37.2 | 70.6 |
| | | June 1 - June 20 | 6 | 2 | 4.9 | 29.4 | 100.0 |
| Merced (047) | Summer Planted | October 10 - October 31 | 4 | 4 | 0.4 | 1.6 | 1.6 |
| | | November 1 - November 30 | 6 | 4 | 0.4 | 2.4 | 4.0 |

In accordance with Section 13 of the ARH Strawberry Pilot Crop Provisions, the unharvested production adjustment amount is \$0.24 per pound.

Acreage Limitation: In accordance with Section 9 of the ARH Strawberry Pilot Crop Provisions, the insured acreage for the current crop year will be limited to 125 percent of the greatest strawberry acreage grown in any of the 3 preceding crop years, unless this limitation is waived by the RMA Regional Office or if the increase is 10 acres or less. The insurable number of acres will be calculated by multiplying the greatest number of acres you planted in any of the 3 preceding crop years by 1.25. This number of acres will be included on the acreage report as insurable. All acres exceeding this amount must be reported as uninsured. The value of production to count will be reduced as described in the ARH Strawberry Pilot Crop Provisions.

Special Provisions of Insurance

2013 and Succeeding Crop Years

Year: 2013

Commodity: Strawberries (0154)

State: California (06)

Date: 4/5/2012

Plan: Actual Revenue History (47)

County: Santa Barbara (083)

In lieu of the second sentence of Section 24(a) of the Basic Provisions, for the purpose of premium amounts owed to us or administrative fees owed to FCIC, interest will start to accrue on the first day of the month following the issuance of the notice by us, provided that a minimum of 30 days have passed from the premium billing date specified in the Special Provisions.

Practice

- *7 In addition to any requirements for separate ARH yields and revenues (databases) contained in the policy and in FCIC approved procedures, separate databases for certified and transitional acreage are required for any insured crop grown using an organic farming practice. Only acreage, production, and revenue history from each acreage type of the organic farming practice will be contained in the applicable database. Each database will include production, acreage, and revenue from any applicable buffer zone. Acreage, production, and revenue records of the insured crop from transitional acreage will be used to establish the certified organic approved ARH Revenue when such acreage initially qualifies as certified organic acreage. A variable T-Revenue will be used to complete the database, if required. Amounts shown on the Transitional Revenue Substitution Table and the Transitional Yield Substitution Table apply to the organic farming practice.
