| T/P 6 | No Type Specified 997 | Organic(Transitional) Irr. 712 *4     |

### Statement

#### General

In lieu of the definition of "Wet in-shell" in section 1 of the Macadamia Nut Crop Provisions, wet in-shell excludes immature and unsound nuts (floaters and peewees).

In lieu of the second sentence of Section 24(a) of the Basic Provisions, for the purpose of premium amounts owed to us or administrative fees owed to FCIC, interest will start to accrue on the first day of the month following the issuance of the notice by us, provided that a minimum of 30 days have passed from the premium billing date specified in the Special Provisions.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

#### Practice

- \*4 Acreage and production history from certified organic or transitional acreage will be contained in separate APH databases. Each APH database will include production and acreage from any applicable buffer zone. Any yearly average APH yields, for the most recent four crop years only, from the transitional acreage database will be used in place of Transitional Yields (T-yields) to establish the certified organic APH database. A variable T-yield will be used to complete the database, if required.

### 2016 and Succeeding Crop Years

|                 |                                  |                     |
|-----------------|----------------------------------|---------------------|
| Year: 2016      | Commodity: Macadamia Nuts (0023) | State: Hawaii (15)  |
| Date: 7/21/2014 | Plan: APH (90)                   | County: Kauai (007) |

#### Price

If a contract price is available as shown in the actuarial documents, you may elect to have your price election determined in accordance with the Contract Price Addendum (CPA). If the crop provisions or special provisions provide a method to determine a contract price your price election will be determined in accordance with the crop provisions or special provisions and the CPA does not apply.
