Statement

General

Raw sugar content percentage for use in adjusting harvested production or unharvested production that is appraised after the earliest delivery date that the processor accepts harvested production as provided in the Sugar Beet Crop Provisions: 16.2 percent.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

In lieu of the second sentence of Section 24(a) of the Basic Provisions, for the purpose of premium amounts owed to us or administrative fees owed to FCIC, interest will start to accrue on the first day of the month following the issuance of the notice by us, provided that a minimum of 30 days have passed from the premium billing date specified in the Special Provisions.

In lieu of the section 11(b) of the Sugar Beet Crop Provisions, the maximum amount of the replanting payment per acre will be \$80.00, multiplied by your insured share.

In lieu of Section 17(f)(5)(ii) of the Common Crop Insurance Basic Provisions, haying or grazing a cover crop will not impact eligibility for a prevented planting payment provided such action did not contribute to the acreage being prevented from planting.

Practice

- *6 Acreage and production history from certified organic or transitional acreage will be contained in separate APH databases. Each APH database will include production and acreage from any applicable buffer zone. Any yearly average APH yields, for the most recent four crop years only, from the transitional acreage database will be used in place of Transitional Yields (T-yields) to establish the certified organic APH database. A variable T-yield will be used to complete the database, if required.

Price

If a contract price is available as shown in the actuarial documents, you may elect to have your price election determined in accordance with the Contract Price Addendum (CPA). If the crop provisions or special provisions provide a method to determine a contract price your price election will be determined in accordance with the crop provisions or special provisions and the CPA does not apply.

Premium

In lieu of section 7(h)(2)(i) of the Basic Provisions, notwithstanding section 7(h)(2) of the Basic Provisions, if you demonstrate you began farming for the first time after June 1 but prior to the beginning of the reinsurance year (July 1), you may be eligible for premium subsidy the subsequent reinsurance year without having form AD-1026 on file with FSA on or before June 1. For example, if you demonstrate you started farming for the first time on June 15, 2015, you may be eligible for premium subsidy for the 2016 reinsurance year without form AD-1026 on file with FSA.

Insurance Availability

Insurance will not attach on acreage in any crop year following discovery of rhizomania unless planted to a rhizomania resistant variety approved by the contracting sugar beet company.

For acreage that requires a written agreement for insurability per Section 9(a)(1)(iv) of the Basic Provisions (new breaking written agreement), the written agreement request must be submitted by the applicable sales closing date in lieu of section 18(e)(2)(i)(B) and in accordance with section 18(e)(2)(iii).
