**Statement**

**General**

The weight of bins or boxes is established by the first handler (packing house or processor) and should be specified on the records or settlement sheet.

In lieu of the second sentence of Section 24(a) of the Basic Provisions, for the purpose of premium amounts owed to us or administrative fees owed to FCIC, interest will start to accrue on the first day of the month following the issuance of the notice by us, provided that a minimum of 30 days have passed from the premium billing date specified in the Special Provisions.

## Special Provisions of Insurance

### 2016 and Succeeding Crop Years

Year: 2016	Commodity: Apples (0054)	State: California (06)
Date: 7/23/2015	Plan: APH (90)	County: Yuba (115)

#### SET OUT YEAR AND LEAF YEAR

The SET OUT YEAR for APH reporting purposes is the actual calendar year for acreage planted before July 1st. For acreage planted on or after July 1st, the SET OUT YEAR shall be the year following the calendar year in which set out actually occurred.

To determine LEAF YEAR subtract the set out year from the calendar year of insurance (or APH crop year for the yield substitution purposes), then add one year.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

#### Type

In accordance with section 2(b) of the Apple Crop Provisions, you may divide a unit into optional units by type; however, you may not establish an optional unit for type "Fresh 111" in combination with an optional unit for a type identified as a Varietal Group in the actuarial documents. For each unit for which you qualify, you may not report type "Fresh 111" if you also report a type identified as a Varietal Group in the actuarial documents.

Varietal Group A insurable varieties: There are no varieties in this group.

- \*7 Varietal Group B insurable varieties: Gala and Cripps Pink (Pink Lady). Varietal Group B will include all commercially recognized selections and brand names, mutations, or sports; but, does not include hybrids created by crosses between the stated variety and any other varieties.
- \*8 Varietal Group C insurable varieties: All other Apple varieties not specified in Group B or Group A if applicable.

#### Practice

- \*9 Acreage and production history from certified organic or transitional acreage will be contained in separate APH databases. Each APH database will include production and acreage from any applicable buffer zone. Any yearly average APH yields, for the most recent four crop years only, from the transitional acreage database will be used in place of Transitional Yields (T-yields) to establish the certified organic APH database. A variable T-yield will be used to complete the database, if required.

#### Date

In accordance with section 9(a)(3), the calendar date for the end of insurance period for each crop year is November 10 for the Fuji variety and November 20 for the Pink Lady variety.

#### Price

If a contract price is available as shown in the actuarial documents, you may elect to have your price election determined in accordance with the Contract Price Addendum (CPA). If the crop provisions or special provisions provide a method to determine a contract price your price election will be determined in accordance with the crop provisions or special provisions and the CPA does not apply.

## Special Provisions of Insurance 2016 and Succeeding Crop Years

Year: 2016	Commodity: Apples (0054)	State: California (06)
Date: 7/23/2015	Plan: APH (90)	County: Yuba (115)

### Premium

In lieu of section 7(h)(2)(i) of the Basic Provisions, notwithstanding section 7(h)(2) of the Basic Provisions, if you demonstrate you began farming for the first time after June 1 but prior to the beginning of the reinsurance year (July 1), you may be eligible for premium subsidy the subsequent reinsurance year without having form AD-1026 on file with FSA on or before June 1. For example, if you demonstrate you started farming for the first time on June 15, 2015, you may be eligible for premium subsidy for the 2016 reinsurance year without form AD-1026 on file with FSA.

Effective for any policy with a sales closing date on or after July 1, 2015 but not later than June 30, 2016, in lieu of sections 2(c) and (d) of the Basic Provisions, you may not cancel your policy for the initial crop year, but after the initial crop year either you or we may cancel your policy by providing written notice to the other on or before the cancellation date shown in the Crop Provisions. However, for both new and carryover policies you may cancel your policy not later than 45 days after the cancellation date if all of the following are met:

1. You request through your agent and Approved Insurance Provider to query the FSA data regarding whether you have filed an AD-1026 with FSA and such query reveals that there is no AD-1026 on file for the identification number under which you seek, or have, insurance;
2. You believe the FSA information is in error and that a valid AD-1026 is on file;
3. You make application, or elect not to cancel an existing policy, based on this belief;
4. You request review not later than 15 days after the sales closing date, via your AIP, by RMA and FSA of your records and attempt to reconcile any discrepancy; and
5. The result of such process is that you do not have a valid AD-1026 on file.

If all of these conditions are not met, you are precluded from cancelling your policy until the next crop year and you will be responsible for all premium owed.
