Statement

General

SET OUT YEAR AND LEAF YEAR

The SET OUT YEAR for APH reporting purposes is the actual calendar year for acreage planted before July 1st. For acreage planted on or after July 1st, the SET OUT YEAR shall be the year following the calendar year in which set out actually occurred.

To determine LEAF YEAR subtract the set out year from the calendar year of insurance (or APH crop year for the yield substitution purposes), then add one year.

In lieu of the definition in section 1 of the Grape Crop Provisions, harvest will be defined as, "Removing of the mature grapes from the vines or severing the canes or vines for dried-on-vine raisin production."

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Price

In accordance with section 3(d) of the Grape Crop Provisions, the price contained in your grape contract may be used for your price election. The contract price used will be the amount per ton specified in the contract without regard to incentives or discounts. If more than one contract price exists, the established price election will be the weighted average for all adjusted contract prices. In no case will the price be greater than the Maximum Contract Price provided in the Actuarial Documents for the applicable grape type/variety. Grapes may be insured using the contract price only if: 1) a written contract is in effect between the producer and a winery or a processor for the current crop year; 2) the contract states amount that will be paid per ton and number of tons or acres contracted; 3) a copy of the contract(s) is provided to us no later than the acreage reporting date; 4) all production from insurable acreage of the variety must be grown under a grape contract; and 5) acreage is insured at a buy-up level of coverage.

In accordance with Section 15(d) of the Basic Provisions, the price used to compute your indemnity on unharvested acreage will be the price election minus the harvest costs amount as provided within the Prices Tab of these Actuarial Documents.

Insurance Availability

Insurable age of vines: Fourth growing season after being set out. Third growing season after bench-grafted vines are set out. Third growing season after field grafted.
