as there are at least 0.2 living alfalfa plants per square foot.

No maximum age limitation applies.

Insurance coverage provided by the Forage Production Crop Provisions will continue for acreage that is grazed after it has gone into winter dormancy, defined as the suspension of growth and development of the alfalfa plants during fall and winter months. Producers must remove all livestock prior to the emergence of the forage from winter dormancy.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.
