**Statement**

**General**

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop.

Enterprise units are available in this county.

**Date**

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

**Price**

If a contract price is available as shown in the actuarial documents, you may elect to have your price election determined in accordance with the Contract Price Addendum (CPA). If the crop provisions or special provisions provide a method to determine a contract price your price election will be determined in accordance with the crop provisions or special provisions and the CPA does not apply.

**Insurance Availability**

Insurance shall not attach to any acreage with known infestations of Fusarium Fungus within the three previous years.

## Special Provisions of Insurance

### 2022 and Succeeding Crop Years

Year: 2022

Commodity: Dry Peas (0067)

State: California (06)

Date: 6/25/2021

Plan: APH (90)

County: San Joaquin (077)

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

\*8 The definition of Latest Final Planting Date in Section 1 of the crop provisions is not applicable to the Large Kabuli Chickpeas type.
