Statement

General

AVRB represents the Alfalfa Variety Review Board or its successor entities responsible for determining fall dormancy ratings of Alfalfa cultivars. DRA is defined as the Dormancy Rating Group A (ratings 1-4) and when applicable, DRD is defined as Dormancy Rating Group D (ratings 5-9).

Special Provisions of Insurance

2022 and Succeeding Crop Years

Year: 2022

Commodity: Alfalfa Seed (0107)

State: Wyoming (56)

Date: 6/16/2021

Plan: APH (90)

County: Big Horn (003)

Alfalfa seed grown under a forage seed contract may have optional units established by variety in lieu of the optional unit provisions in section 34(c) of the Basic Provisions. If optional units by variety are selected, all acres of a variety will be considered to be one optional unit, even if more than one forage seed contract is involved for the variety. If optional units by variety are not selected, the optional unit provisions in section 34(c) of the Basic Provisions apply. The type of optional units selected applies to all contracted acres insured under the policy. The optional unit provisions in section 34(c) of the Basic Provisions apply to alfalfa seed grown solely for harvest as certified seed and not grown under a forage seed contract.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Practice

- *4 ADEQUATE STAND/MINIMUM PLANTS REQUIRED: For living and fully developed alfalfa plants per square foot for the irrigated practice: Established Stand: 0.2.
- *5 ADEQUATE STAND/MINIMUM PLANTS REQUIRED: For living alfalfa plants per square foot for the irrigated practice: Fall planted seed-to-seed and spring planted seed-to-seed: 0.5.

Date

The production reporting date will be the earliest acreage reporting date.

Price

The established price election available for this county crop program will be released in the actuarial documents prior to the policy contract change date. An additional price election, if applicable, will be released no later than 15 days prior to the sales closing date.

If a contract price is available as shown in the actuarial documents, you may elect to have your price election determined in accordance with the Contract Price Addendum (CPA). If the crop provisions or special provisions provide a method to determine a contract price your price election will be determined in accordance with the crop provisions or special provisions and the CPA does not apply.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

AGE LIMITATION: In accordance with Section 7 of the Forage Seed crop provisions, insurability of alfalfa seed acreage will not continue beyond the earlier of the originator's stipulated maximum age of stand for the applicable variety or the fifth crop year after the crop year of initial seeding.
