Statement

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Relay cropping is defined as a cropping practice where a second-planted crop ("relay crop") is planted into an established crop (other than a cover crop) where the crops are planted in a manner that allows separate agronomic maintenance and harvest of the crops unless otherwise defined in the Crop Provisions. Damage to either crop during planting, harvest, or general maintenance of either crop will be considered an uninsurable cause of loss.

Date

*3 In accordance with section 10 of the Crop Provisions, the end of insurance date will be no later than the date specified in the actuarial documents.
