Statement

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Inspection and Acceptable Records:

In accordance with section 11(d)(2)(ii) of the applicable crop provisions, acceptable records of direct marketed production are:

Daily pick records that meet the requirements in the Crop Insurance Handbook (Section 1421 B. Pick Records) or:

1. Daily farm log that includes quantity sold and price received on a unit basis; or
2. Pick records with pickers identification number and amount picked daily on a unit basis; or
3. Cash register receipt with quantity sold and price received on a unit basis.

The trailing islands in the state of Hawaii, defined by the United States Census Bureau as Census Tract 114.98 of Honolulu County, shall not constitute a triggered county or county adjacent to a triggered county for purposes of determining a county loss trigger under the Hurricane Insurance Protection-Wind Index Endorsement.

In addition to the production reporting requirements in section 3(f) of the Basic Provisions, you must report, as specified in FCIC procedures, your current year's production on our form on the same basis used to establish your approved yield(s). The current year's production must be reported by one year (366 days) following the production reporting date contained in the actuarial documents. This production report will be used to meet the production reporting requirements in section 3(f) of the Basic Provisions for the following crop year, if there are no changes in the basis used to establish your approved yield. Your current year's production report is also subject to section 3(g) of the Basic Provisions.
