Statement

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

In addition to the production reporting requirements in section 3(f) of the Basic Provisions, you must report, as specified in FCIC procedures, your current year's production on our form on the same basis used to establish your approved yield(s). The current year's production must be reported by one year (365 days) following the production reporting date contained in the actuarial documents. This production report will be used to meet the production reporting requirements in section 3(f) of the Basic Provisions for the following crop year, if there are no changes in the basis used to establish your approved yield. Your current year's production report is also subject to section 3(g) of the Basic Provisions.

Type

*4 Insurable Varieties for Group B: All other varieties not specified in Group A.

Date

*5 Insurance will attach only on potatoes planted during the period of December 1 - February 28.

Special Provisions of Insurance 2023 and Succeeding Crop Years

Year: 2023

Commodity: Potatoes (0084)

State: Arizona (04)

Date: 8/9/2022

Plan: APH (90)

County: Maricopa (013)

*6 In lieu of section 6(a)(2) of the Basic Provisions, you must submit your acreage report on or before the acreage reporting date contained in these Special Provisions.

*7 Insurable variety for Group A: Russet.

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Price

If a contract price is available as shown in the actuarial documents, you may elect to have your price election determined in accordance with the Contract Price Addendum (CPA). If the crop provisions or special provisions provide a method to determine a contract price your price election will be determined in accordance with the crop provisions or special provisions and the CPA does not apply.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In accordance with section 8 of the Basic Provisions, insurance shall not attach to planted acres intended to be harvested as creamer size potatoes, unless provided by written agreement.

Quality

With regard to Grade Inspections and the respective U.S. Grade Standard (i.e. Processing, Chipping, Seed and all other Potatoes), the only size modifications recognized are those instituted by State or Federal Marketing Orders.
