Statement

General

*1 Mulch is defined under this practice as a plastic film that is placed on the beds prior to planting the tomato crop and remains until after harvest is complete.

In accordance with section 3(d) of the Guaranteed Production Plan of Fresh Market Tomato Crop Insurance Provisions, the stages and production guarantees for CHERRY, GRAPE, ROMA, and PLUM type tomatoes will be the same as specified in section 3(b)(2).

In accordance with section 12(b)(2) of the Guaranteed Production Plan of Fresh Market Tomato Crop Insurance Provisions, the replanting payment per acre for CHERRY, GRAPE, ROMA, and PLUM tomatoes will be the same as specified in section 12(b)(1).

Special Provisions of Insurance

2023 and Succeeding Crop Years

Year: 2023

Commodity: Fresh Market Tomatoes (0086)

State: South Carolina (45)

Date: 8/9/2022

Plan: APH (90)

County: Spartanburg (083)

A classification size minimum of 3/4 inch in diameter for CHERRY tomatoes applies to the definition of potential production under section 1 and section 13(c)(1)(iii)(B) and (c)(2)(ii)(B) of the Guaranteed Production Plan of the Fresh Market Tomato Crop Provisions.

A classification size minimum of 1/2 (one half) inches in diameter for GRAPE tomatoes applies to the definition of potential production under section 1 and section 13(c)(1)(iii)(B) and (c)(2)(ii)(B) of the Guaranteed Production Plan of Fresh Market Tomato Crop Provisions.

A classification size minimum of 1.5 inches in diameter and 2.0 inches in length for PLUM and ROMA tomatoes applies to the definition of potential production under section 1 and section 13 (c)(1)(iii)(B) and (c)(2)(ii)(B) of the Guaranteed Production Plan of Fresh Market Tomato Crop Provisions.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

In addition to section 8 (Insured Crop) of the Crop Provisions, all tomato types listed in these special provisions must be field grown.

In addition to the production reporting requirements in section 3(f) of the Basic Provisions, you must report, as specified in FCIC procedures, your current year's production on our form on the same basis used to establish your approved yield(s). The current year's production must be reported by one year (366 days) following the production reporting date contained in the actuarial documents. This production report will be used to meet the production reporting requirements in section 3(f) of the Basic Provisions for the following crop year, if there are no changes in the basis used to establish your approved yield. Your current year's production report is also subject to section 3(g) of the Basic Provisions.

Type

- *10 Traditional Round/Globe Definition: Field Grown mature green or ripe fresh market tomato types that would meet the standards of a U.S. No. 1 as provided in the United States Standards for Grades of Fresh Market Tomatoes.
- *11 Roma varieties will be insurable under the plum type.

Date

In lieu of the cancellation and termination dates in the crop provisions, the cancellation and termination dates are January 31.

In accordance with section 10 of the Crop Provisions, the end of insurance date will be no later than the date specified in the actuarial documents.

Price

If a contract price is available as shown in the actuarial documents, you may elect to have your price election determined in accordance with the Contract Price Addendum (CPA). If the crop provisions or special provisions provide a method to determine a contract price your price election will be determined in accordance with the crop provisions or special provisions and the CPA does not apply.

Special Provisions of Insurance

2023 and Succeeding Crop Years

Year: 2023

Commodity: Fresh Market Tomatoes (0086)

State: South Carolina (45)

Date: 8/9/2022

Plan: APH (90)

County: Spartanburg (083)

Insurance Availability

In lieu of section 8(e)(4) of the Guaranteed Production Plan of Fresh Market Tomato Crop Provisions, and in accordance with section 8(e) of these crop provisions, CHERRY, GRAPE, ROMA, AND PLUM type tomatoes will be insurable in this county.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.
