Statement

General

SET OUT YEAR AND LEAF YEAR

The SET OUT YEAR for APH reporting purposes is the actual calendar year for acreage planted before July 1st. For acreage planted on or after July 1st, the SET OUT YEAR shall be the year following the calendar year in which set out actually occurred.

To determine LEAF YEAR subtract the set out year from the calendar year of insurance (or APH crop year for the yield substitution purposes), then add one year.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Pursuant to section 2(b) of the Pear Crop Provisions, optional units may be established by type.

In addition to the production reporting requirements in section 3(f) of the Basic Provisions, you must report, as specified in FCIC procedures, your current year's production on our form on the same basis used to establish your approved yield(s). The current year's production must be reported by one year (366 days) following the production reporting date contained in the actuarial documents. This production report will be used to meet the production reporting requirements in section 3(f) of the Basic Provisions for the following crop year, if there are no changes in the basis used to establish your approved yield. Your current year's production report is also subject to section 3(g) of the Basic Provisions.

Special Provisions of Insurance

2023 and Succeeding Crop Years

Year: 2023	Commodity: Pears (0089)	State: California (06)
Date: 8/9/2022	Plan: APH (90)	County: Solano (095)

Type

- *5 Insurable Winter Pear varieties include Anjou/d'Anjou, Bosc, Forelle, French Butter, Comice (Green and Red), Korean Giant, Olympic, Packham/Packham's Triumph, Seckel, Taylor's Gold, Winter Nelis, and any other late maturing variety conforming to or scorable under (includes Asian varieties) the AMS standards for grades of winter pears.
- *6 Insurable Summer and Fall Pear varieties include Atago, Canal Red, Clapp's Favorite, Hosui, Kosui, Nijisseiki (20th Century), Nitaka, Red Bartlett, Seigyoku, Shinko, Shinseiki, Shinsui, Starkrimson, Sunsprite, Tosca, Ya Li, Yoinashi, and any other early or mid-season maturing variety conforming to or scorable under (includes Asian varieties) the AMS standards for grades of summer & fall pears, except Green Bartlett.

Date

The production reporting date will be the acreage reporting date.

- *8 In accordance with section 8(a)(3) of the Pear Crop Provisions, the calendar date for the end of insurance period for each crop year for Green Bartlett is September 15.

Price

If a contract price is available as shown in the actuarial documents, you may elect to have your price election determined in accordance with the Contract Price Addendum (CPA). If the crop provisions or special provisions provide a method to determine a contract price your price election will be determined in accordance with the crop provisions or special provisions and the CPA does not apply.

In addition to section 11(c)(3)(iii) of the Pear Crop Provisions, for harvested production subtract the Harvest Cost amount as provided in the Prices Tab of these Actuarial Documents from the price received by the insured to adjust for costs incurred for harvest.

Insurance Availability

- *11 In accordance with Section 6(c) of the Pear Crop Provisions, the insured may submit a determined yield request to the Risk Management Agency Regional Office to insure acreage that has not met the minimum production requirement.
