**Statement**

**General**

**SET OUT YEAR AND LEAF YEAR**

The SET OUT YEAR for APH reporting purposes is the actual calendar year for acreage planted before July 1st. For acreage planted on or after July 1st, the SET OUT YEAR shall be the year following the calendar year in which set out actually occurred.

To determine LEAF YEAR subtract the set out year from the calendar year of insurance (or APH crop year for the yield substitution purposes), then add one year.

In addition to, or instead of, establishing optional units by non contiguous land, optional units may be established by type as provided by section 2(b) of the Stonefruit Crop Provisions.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

## Special Provisions

#### Price

If a contract price is available as shown in the actuarial documents, you may elect to have your price election determined in accordance with the Contract Price Addendum (CPA). If the crop provisions or special provisions provide a method to determine a contract price your price election will be determined in accordance with the crop provisions or special provisions and the CPA does not apply.

**Special Provisions**  
**2024 and Succeeding Crop Years**

Year: 2024	Commodity: Fresh Nectarines (0220)	State: California (06)
Date: 8/16/2023	Plan: APH (90)	County: Kern (029)

**Insurance Availability**

\*8 In accordance with Section 6(b)(5) of the Stonefruit Crop Provisions, the insured may submit a determined yield request to the Risk Management Agency Regional Office to provide a determined yield to insure acreage that has not met the minimum production requirement but has met the requirement in 6(b)(6).

In accordance with Section 6(b)(6) of the Stonefruit Crop Provisions, the insured may submit a determined yield request to the Risk Management Agency Regional Office to provide a determined yield to insure fourth leaf year acreage that has met the requirement in 6(b)(5).

**Quality**

In accordance with section 1 of the Stonefruit Crop Provisions for Grade Standards, Production must meet U.S. No. 1 standards as modified by the latest California Tree Fruit Agreement publication for fresh nectarines.

In addition to section 11(c)(4) of the Stonefruit Crop Provisions, for harvested production subtract the Harvest Cost dollar amount shown on the Prices Tab of the Actuarial Information Browser from the price received by the insured to adjust for costs incurred for harvest and delivery; ensure all values are expressed in the commodity's unit of measure. The cost adjustment for harvest and delivery shall not be deducted from the fruit's value when the insured does not incur such expense or if such costs are not customary for the insured stonefruit crop.
