**Statement**

**General**

**SET OUT YEAR AND LEAF YEAR**

The SET OUT YEAR for APH reporting purposes is the actual calendar year for acreage planted before July 1st. For acreage planted on or after July 1st, the SET OUT YEAR shall be the year following the calendar year in which set out actually occurred.

To determine LEAF YEAR subtract the set out year from the calendar year of insurance (or APH crop year for the yield substitution purposes), then add one year.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

**Date**

In accordance with the Crop Provisions Section 9 (a) all table grape types in the county will have an end of insurance date of July 31.

**Price**

If a contract price is available as shown in the actuarial documents, you may elect to have your price election determined in accordance with the Contract Price Addendum (CPA). If the crop provisions or special provisions provide a method to determine a contract price your price election will be determined in accordance with the crop provisions or special provisions and the CPA does not apply.

**Special Provisions**  
**2024 and Succeeding Crop Years**

Year: 2024

Commodity: Table Grapes (0052)

State: California (06)

Date: 8/16/2023

Plan: APH (90)

County: Imperial (025)

**Insurance Availability**

Insurable age of vines: Fourth growing season after being set out. Third growing season after being grafted.

Any acreage that is interplanted with another perennial crop is insurable unless we inspect the acreage and determine that it does not meet the requirements contained in your policy.

\*7 In accordance with Section 7(f) of the Table Grape Crop Provisions, the insured may submit a determined yield request to the Risk Management Agency Regional Office to insure acreage that has not met the minimum production requirement.
