General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

If during any of the three most recent crop years you incurred a paid crop insurance indemnity due to excess moisture or flood that was not associated with a named storm (hurricane, typhoon, or tropical storm named and designated as such by the National Oceanic and Atmospheric Administration's National Hurricane Center, or its successor), we will not insure against any future losses due to excess moisture or flood not associated with a named storm unless you make improvements to your nursery to mitigate future losses from these perils. At your request, we will inspect the improvements and, if acceptable, approve the nursery for renewed coverage against these perils.

In accordance with section 10(c)(1) of the Crop Provisions, viral infection of orchids is a covered cause of loss provided that the infected plants exhibit explicit physical symptoms of the disease (e.g., color break of flowers, ring-spot lesions, etc.). Additionally, in accordance with section 10(c)(5), asymptomatic plants for which the only damage is failure to grow to an expected size or failure to produce an expected number of flowers will not be considered damaged by an insurable cause of loss.

Special Provisions
2026 and Succeeding Crop Years

Year: 2026	Commodity: Nursery (NVS) (1010)	Use: 1000 ^• 0 1 3 1 1 0 1 D
Date: 12/18/2024	Plan: Dollar Amount Of Insurance (50)	County: Marion (049)

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Nursery (NVS) (1010)	Use All or None as a basis
Date: 12/18/2024	Plan: Dollar Amount Of Insurance (50)	County: Marion (049)

Leaf drop without death of the twigs, branches or stems is considered a normal response to cold and will not be considered as basis for a claim for all cultivars of Ficus benjamina, Ficus retusa, and Hibiscus rosa-sinensis; all species and cultivars of Ixora; and any genus, species, and cultivars of deciduous trees. Death of the twigs, branches, or stems is minimally required as a basis for claim.

PROHIBITED PLANTS - Any plant classified by a state or county as illegal to grow or sell in the county in which the nursery is located is uninsurable. For example, growing or selling plants classified as invasive species is illegal in many states and counties. No indemnity will be paid on any such plant.

À

Damage Factors:

Condition	Degree of Damage	Damage Factor
For Liners and Annual Plants Plant Categories		
Undamaged	10%	0.00
Dead/Zero Market Value	Dead or damaged to the extent the plant has zero market value and cannot be marketed	1.00
À		
For all other plant categories		
Undamaged	less than 10%	0.00
Retained Damaged	equal to or greater than 10%	0.50
Discarded Damaged	equal to or greater than 10%	0.75
Dead/Zero Market Value	Dead or damaged to the extent the plant has zero market value and cannot be marketed	1.00

In addition to section 1 of the Crop Provisions, the definition of standard nursery containers will include: (a) herbaceous biennial and perennial plants that are grown in the field in containers without a bottom in a manner that allows the plants' roots to grow into the ground, and (b) for all other plant categories, containers without a bottom that are placed on a barrier that will not permit the plants' roots, other than fibrous roots, to grow into the ground.

Cold Protection Requirements for Container Nursery Stock

I. General Cold Protection Facts

A. Plant root tissue does not harden off as quickly as above-ground tissue. Plants in containers above the ground require more protection than when a plant is planted in the ground, as the ground serves as an effective insulator.

B. Objectives for nursery container Cold Protection Requirements (CPRs):

1. To provide effective and feasible cold protection methods for applicable Plant Categories in each hardiness zone.
2. To provide maximum insurability for applicable Plant Categories in each hardiness zone.

C. Both the Basic CPRs and the more specific Operational CPRs are required for containerized and container-grown plants based on the hardiness zone for the plant. Good Nursery Practices are defined as horticultural practices generally in use in the United States for the production of nursery plants in making normal progress toward the stage of growth at which marketing can occur and are generally recognized by agricultural experts for the area where the plants are being grown, as compatible with the nursery plant production practices and weather conditions in the county. As assigned to a specific Plant Category in a specific hardiness zone, then CPRs shall be required with all Operational CPRs. Consideration will be given to circumstances wherein the above are unattainable or impossible to implement.

II. Basic Cold Protection Requirements (CPRs).

A. General Basic CPRs:

1. All plants shall be managed in accordance with Good Nursery Practices. Good Nursery Practices are defined as horticultural practices generally in use in the United States for the production of nursery plants in making normal progress toward the stage of growth at which marketing can occur and are generally recognized by agricultural experts for the area where the plants are being grown, as compatible with the nursery plant production practices and weather conditions in the county.
2. Basic CPRs shall be required with all Operational CPRs.
3. Good Nursery Practices shall include management and operations that prevent plant stress relative to, but not limited to, the following factors: over and under irrigation; salt accumulation including increased fertilizer release from incorporated slow release fertilizers; insect or disease damage; improper fertilization, herbicide, insecticide and fungicide applications such as incorrect products, improper timing, incorrect calibration and/or rates, and species injury susceptibility. Consideration will be given to circumstances wherein the above are unattainable or impossible to implement.

B. Descriptive Basic CPRs.

Special Provisions 2026 and Succeeding Crop Years

Ùcæ^kŵŵ^•cXă*ăăc|D

County: Marion (049)

1. All container plants must be irrigated to maintain appropriate moisture levels needed for optimum growth and winter cold hardiness.
2. Y hay, straw, etc.
3. Solar radiation protection via shade cloth or similar products must be provided as needed.
4. All plants must be provided cold and heat protection required to prevent winter injury, maintain dormancy during the winter, and to regain growth and vigor at
5. Structural and plant coverings shall consist of a polyethylene plastic film that is translucent (diffuse light transmission) or semi-transparent or slightly opaque (fleece) fabric, spun-bound blankets, heavy shade cloth, all of which are of the appropriate thickness or weight for normal freeze or frost protection as specified
6. The use of
7. Protection may be season-long or applied and removed as needed to provide freeze or frost protection in accordance with the timing of protection application and removal, including venting during warm periods, can be as critical as the method of protection. The goal is to
8. In providing proper cold protection, growers must consider the age or maturity of the plant as cold hardiness varies according to the age of the plant with less mature plants being more subject to injury.
9. Consolidation of containers placed container-to-container pertains to placing individual containers as close together as possible to slow the rate of cooling of not applicable to liners as their cell spacing is dictated by the tray/pack.
10. Assignment of Operational CPRs are based on Plant Categories, however, some variation in protection needed can occur based on various species and

III. Operational Cold Protection Requirements.

- A. Glass, Lexan types, Polycarbonate sheeting or Double Translucent Poly Covered Walk-in Structure or an environmentally controlled building with plants standing up or lying down, with appropriate supplemental heat, humidity and irrigation to prevent cold, freeze, heat or desiccation damage.
- B. Structureless Plant Bed with plants laid down and consolidated container-to-container, with Poly plus 1" EG of Hay plus Poly plus 1" EG of Hay completely

Q. Smudge Pots, Portable Heaters and/or Wind Machines with sufficient capacity to provide protection for all plants throughout the duration of potential frost damage.

R. No Protection.

UNREPORTED PLANT CATEGORIES - For catastrophic level of coverage, for each insured practice, you must insure and report on the NVR, the selected value of all insurable plant categories in each unit. Any unreported plant categories will not be insured. Additionally, in the event of a loss, we will calculate pre-loss actual unit value for each unreported plant category and assign the value proportionately to the pre-loss actual unit value. The plants in each unreported plant category will be listed as undamaged in the Appraisal Worksheet.

Type

Q. Plants of any species produced in standard nursery or greenhouse containers such as plug trays, sheet pots, tray packs, and bedding packs with cells equal to or less than 3 inches across at the widest point of the cell interior and they must maintain a firm root ball when lifted from the container. Plants in connected containers (i.e. plug trays, sheet pots, tray packs and bedding packs) with cells larger than 3 inches across at the widest point of the cell interior treated as a separate container.

Plants of any species produced in standard nursery or greenhouse containers such as plug trays, sheet pots, tray packs, and bedding packs with cells equal to or less than 3 inches across at the widest point of the cell interior and they must maintain a firm root ball when lifted from the container.

Plants of any species produced in standard nursery or greenhouse containers such as plug trays, sheet pots, tray packs, and bedding packs with cells equal to or less than 3 inches across at the widest point of the cell interior and they must maintain a firm root ball when lifted from the container.

Liners in trays containing multiple species, subspecies, varieties or cultivars are not insurable.

Plants in connected containers (i.e. plug trays, sheet pots, tray packs and bedding packs) with cells larger than 3 inches across at the widest point of the cell interior treated as a separate container.

For cold protection purposes, liners consisting of Annual Plants & Plants Grown for One Year or Less, palms, cycads and, have separate Cold Protection Requirements from liners consisting of perennials other than palms, cycads and plants grown for one year or less.

(4) Foliage Plants

Perennial woody or herbaceous plants with various growth habits grown for their attractive foliar attributes and primarily for use as indoor plants.

This does not include small plants of this category grown as Liners.

Special Provisions					
2026 and Succeeding Crop Years					
1.	For the purpose of this contract, the term "Contract Price" shall mean the price per bushel of corn as set forth in the attached schedule of prices, which may be subject to adjustment based on market conditions.				
2.	The Seller warrants that the Corn delivered hereunder shall conform to the quality specifications set forth in the attached schedule of specifications, which may be subject to adjustment based on market conditions.				
3.	The Buyer warrants that it shall deliver the Corn to the designated location specified in the attached schedule of locations, which may be subject to adjustment based on market conditions.				
4.	The Seller shall deliver the Corn to the Buyer by the date specified in the attached schedule of delivery dates, which may be subject to adjustment based on market conditions.				
5.	The Buyer shall pay the Contract Price to the Seller by the date specified in the attached schedule of payment dates, which may be subject to adjustment based on market conditions.				
6.	This contract shall be governed by the laws of the State of Illinois.				
7.	This contract shall be subject to the terms and conditions of the attached schedule of terms and conditions, which may be subject to adjustment based on market conditions.				
8.	The Seller shall warrant that the Corn delivered hereunder shall be free from all liens and claims.				
9.	The Buyer shall warrant that it shall have the right to sell the Corn at the time of delivery.				
10.	The Seller shall warrant that the Corn delivered hereunder shall be free from all defects.				
11.	The Buyer shall warrant that it shall have the right to receive the Corn at the time of delivery.				
12.	The Seller shall warrant that the Corn delivered hereunder shall be free from all contamination.				
13.	The Buyer shall warrant that it shall have the right to store the Corn at the time of delivery.				
14.	The Seller shall warrant that the Corn delivered hereunder shall be free from all damage.				
15.	The Buyer shall warrant that it shall have the right to transport the Corn at the time of delivery.				
16.	The Seller shall warrant that the Corn delivered hereunder shall be free from all loss.				
17.	The Buyer shall warrant that it shall have the right to use the Corn at the time of delivery.				
18.	The Seller shall warrant that the Corn delivered hereunder shall be free from all theft.				
19.	The Buyer shall warrant that it shall have the right to dispose of the Corn at the time of delivery.				
20.	The Seller shall warrant that the Corn delivered hereunder shall be free from all fraud.				
21.	The Buyer shall warrant that it shall have the right to sue the Seller for breach of this contract.				
22.	The Seller shall warrant that the Corn delivered hereunder shall be free from all litigation.				
23.	The Buyer shall warrant that it shall have the right to enforce this contract.				
24.	The Seller shall warrant that the Corn delivered hereunder shall be free from all disputes.				
25.	The Buyer shall warrant that it shall have the right to resolve any disputes arising from this contract.				
26.	The Seller shall warrant that the Corn delivered hereunder shall be free from all claims.				
27.	The Buyer shall warrant that it shall have the right to defend against any claims arising from this contract.				
28.	The Seller shall warrant that the Corn delivered hereunder shall be free from all suits.				
29.	The Buyer shall warrant that it shall have the right to settle any suits arising from this contract.				
30.	The Seller shall warrant that the Corn delivered hereunder shall be free from all judgments.				
31.	The Buyer shall warrant that it shall have the right to execute any judgments arising from this contract.				
32.	The Seller shall warrant that the Corn delivered hereunder shall be free from all orders.				
33.	The Buyer shall warrant that it shall have the right to comply with any orders arising from this contract.				
34.	The Seller shall warrant that the Corn delivered hereunder shall be free from all decrees.				
35.	The Buyer shall warrant that it shall have the right to enforce any decrees arising from this contract.				
36.	The Seller shall warrant that the Corn delivered hereunder shall be free from all awards.				
37.	The Buyer shall warrant that it shall have the right to accept any awards arising from this contract.				
38.	The Seller shall warrant that the Corn delivered hereunder shall be free from all verdicts.				
39.	The Buyer shall warrant that it shall have the right to challenge any verdicts arising from this contract.				
40.	The Seller shall warrant that the Corn delivered hereunder shall be free from all settlements.				
41.	The Buyer shall warrant that it shall have the right to negotiate any settlements arising from this contract.				
42.	The Seller shall warrant that the Corn delivered hereunder shall be free from all compromises.				
43.	The Buyer shall warrant that it shall have the right to agree to any compromises arising from this contract.				
44.	The Seller shall warrant that the Corn delivered hereunder shall be free from all arrangements.				
45.	The Buyer shall warrant that it shall have the right to enter into any arrangements arising from this contract.				
46.	The Seller shall warrant that the Corn delivered hereunder shall be free from all understandings.				
47.	The Buyer shall warrant that it shall have the right to acknowledge any understandings arising from this contract.				
48.	The Seller shall warrant that the Corn delivered hereunder shall be free from all acknowledgments.				
49.	The Buyer shall warrant that it shall have the right to deny any acknowledgments arising from this contract.				
50.	The Seller shall warrant that the Corn delivered hereunder shall be free from all denials.				
51.	The Buyer shall warrant that it shall have the right to admit any denials arising from this contract.				
52.	The Seller shall warrant that the Corn delivered hereunder shall be free from all admissions.				
53.	The Buyer shall warrant that it shall have the right to retract any admissions arising from this contract.				
54.	The Seller shall warrant that the Corn delivered hereunder shall be free from all retractions.				
55.	The Buyer shall warrant that it shall have the right to confirm any retractions arising from this contract.				
56.	The Seller shall warrant that the Corn delivered hereunder shall be free from all confirmations.				
57.	The Buyer shall warrant that it shall have the right to dispute any confirmations arising from this contract.				
58.	The Seller shall warrant that the Corn delivered hereunder shall be free from all disputes.				
59.	The Buyer shall warrant that it shall have the right to mediate any disputes arising from this contract.				
60.	The Seller shall warrant that the Corn delivered hereunder shall be free from all mediations.				
61.	The Buyer shall warrant that it shall have the right to arbitrate any mediations arising from this contract.				
62.	The Seller shall warrant that the Corn delivered hereunder shall be free from all arbitrations.				
63.	The Buyer shall warrant that it shall have the right to litigate any arbitrations arising from this contract.				
64.	The Seller shall warrant that the Corn delivered hereunder shall be free from all litigations.				
65.	The Buyer shall warrant that it shall have the right to settle any litigations arising from this contract.				
66.	The Seller shall warrant that the Corn delivered hereunder shall be free from all settlements.				
67.	The Buyer shall warrant that it shall have the right to negotiate any settlements arising from this contract.				
68.	The Seller shall warrant that the Corn delivered hereunder shall be free from all negotiations.				
69.	The Buyer shall warrant that it shall have the right to enter into any negotiations arising from this contract.</

Special Provisions 2026 and Succeeding Crop Years

Ùcæ^kŵŵ^•cXă*ăăc|D

County: Marion (049)

Genera Included: Ceratozamia, Cycas, Dioon, Encephalartos, Macrozamia, Zamia.

Insurance Availability

In accordance with sections 8(h) and (i) of the Crop Provisions, industrial hemp (*Cannabis sativa* L.), as defined in the Agricultural Marketing Act of 1946 (7 U.S.C. 1621 et seq.), is the only Cannabis species insurable under this policy and only when grown in accordance with the regulations governing industrial hemp production on the land the industrial hemp is produced, when grown and sold with the root system attached and are not stock plants or plants being grown solely for seed.

If the industrial hemp is produced in a state or tribal territory which has assumed regulatory responsibility for hemp production, you must comply with all requirements and provisions of the regulatory plan of that state or tribe and possess any license required by that plan. You must provide a copy of the license by the sales closing date.

The industrial hemp must be adapted to fiber production). Industrial hemp that is unsalable or destroyed due to a delta-9 tetrahydrocannabinol (THC) level that exceeds 0.3 percent will be considered damaged due to uninsurable causes. You must notify us prior to destroying the industrial hemp, in accordance with section 11(a)(1) of the Crop Provisions.

All species and cultivars of Crocus, Iris, Narcissus, Tulipa, and Hyacinthus are insurable only after they are removed from cold storage, have broken dormancy, and are placed in the greenhouse (mandatory storage structure). The roots must be established and at least one inch of shoot growth must be visible for insurability.

In lieu of section 8(e) of the Crop Provisions, non-irrigated field grown plants will be insurable.

In order to be eligible for insurance coverage against flooding, all *Spathiphyllum* species and cultivars must be grown on benches or in some other way raised a minimum of 4" off the ground.
