T/P 6	No Type Specified 997	Organic(Transitional) Irr. 712

#### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2025 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

#### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

#### Price

Contract price:

## Special Provisions 2025 and Succeeding Crop Years

Year: 2025

Commodity: Safflower (0049)

Use Allstate AFI D

Date: 11/19/2024

Plan: APH (90)

County: Washington (087)

You may use a contract price to determine your insurance guarantee when a contract price code of ~~yes~~ <sup>4</sup> exists on the Prices tab in the actuarial documents for the crop, type, and practice.

Contract price authority (i.e., rules governing the use of contract prices and the method to determine a contract price) will be found in one of the following three places, listed in priority order:

1. Special Provisions, separate from this statement, which authorizes the use of the Contract Price Addendum (CPA);
2. Crop Provisions; or
3. CPA.

When the contract price code is ~~yes~~ <sup>4</sup> on the Prices tab for the crop, type, and practice:

1. If the Crop Provisions or Special Provisions provide the contract price authority, your price will be determined in accordance with the Crop Provisions or Special Provisions. If neither the Crop Provisions or Special Provisions provide contract price authority, your price will be determined in accordance with the CPA; and
2. The Crop Provisions or Special Provisions may only provide contract price authority for specific types or practices. When this occurs, the CPA may be used to determine a contract price for other types or practices where contract price authority is not provided through the Crop Provisions or these Special Provisions.

### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Insurance shall not attach or be considered to have attached without a written agreement to a planted non-irrigated crop on acreage from which, in the same calendar year:

- 1) A perennial hay crop was harvested; or
- 2) A crop (other than a cover crop) reached the headed or budded stage prior to termination, regardless of the percentage of plants that reached the headed or budded stage;

Termination means growth has ended. To qualify for a written agreement, you must provide a minimum of the most recent three years of your double cropping actual production history for the crop in the county. A cover crop is one that meets the criteria outlined in the Insurance Availability section of these Special Provisions.

Commodity: Safflower (0049)  
Plan: APH (90)

Use Allotment A/D  
County: Washington (087)

2. If the insured elects to delay settlement as specified in the General Statements above, the insured shall be entitled to a refund of the premium paid for the crop year 2025.

3. If the insured elects to delay settlement as specified in the General Statements above, the insured shall be entitled to a refund of the premium paid for the crop year 2025.

The sum of all DFs for production containing substances or conditions that are injurious to human or animal health is allowed, in addition to applicable DFs from sections A or B above, except as shown in C3 below.

health agency of the applicable State in which the insured crop is grown, at a level determined as injurious to human or animal health, will be covered only if the appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the

from such flood-damaged acreage and commingle with production from acreage not damaged by flood, such commingled production will not be adjusted for any quality

substances or conditions in excess of the amount allowed by the lower of the following:

- The action or advisory level of the Food and Drug Administration; or
- The action or advisory level of the State in which the insured crop is grown; or
- The action or advisory level of the Federal Reserve Bank of New York.

If the insured elects to delay settlement as specified in the General Statements above, the insured shall be entitled to a refund of the premium paid for the crop year 2025.

- If the insured elects to delay settlement as specified in the General Statements above, the insured shall be entitled to a refund of the premium paid for the crop year 2025.

## Special Provisions 2025 and Succeeding Crop Years

Year: 2025  
Date: 11/19/2024

Commodity: Safflower (0049)  
Plan: APH (90)

Unit: 1000000 AFD  
County: Washington (087)

insurable quality deficiencies, and that value divided by the local market price.

- b. For unsold production or production sold to other than a disinterested third party prior to 60 days after the calendar date for the EOIP, the DF will be the applicable DFs shown in the chart below (unless you elect to delay settlement as specified in the General Statements above) added to the applicable DFs included in sections A or B2 above.
- c. Unsold 60 days after the calendar date for the EOIP, fed, utilized in any other manner, or is sold to other than a disinterested third party, the DF will be the applicable DFs shown in the chart below added to the applicable DFs included in sections A or B3 above.

DFs for Vomitoxin:

Vomitoxin Range	DF
0.1 - 1.0 ppm	.000
1.1 - 10.0 ppm	.450
10.1 ppm & above	See C3 below

2. For production containing substances or conditions, other than Vomitoxin, that qualifies under section C with an Aflatoxin level of 300 ppb or less, or other substances or conditions with a level less than the maximum allowable, adjust the production in the following manner.
  - a. If on the date of final adjustment for the unit, the production was transported directly from the field to the buyer, or transported directly from the field and put into commercial storage without going into on farm storage, the DF will be:
    - i. For production sold to a disinterested third party prior to 60 days after the calendar date for the EOIP, the sum of all RIVs applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price.
    - ii. For production sold to a disinterested third party 60 days after the calendar date for the EOIP, the applicable DFs shown in the chart below in section C2b, added to the applicable DFs included in sections A or B2 above.
    - iii. For unsold production containing Aflatoxin 60 days after the calendar date for the EOIP, the applicable DFs shown in the chart below in section C2b, added to the applicable DFs included in sections A or B2 above.
    - iv. For unsold production containing all other mycotoxins or substances or conditions prior to 60 days after the calendar date for the EOIP (unless you elect to delay settlement as specified in the General Statements above), the applicable DFs shown in the chart below in section C2b, added to the applicable DFs included in sections A or B2 above.
    - v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, added to the applicable DFs included in sections A or B2 above.
  - b. If on the date of final adjustment for the unit, the unsold production is in on-farm storage, is in commercial storage but was not transported directly from the field, was fed or utilized in any other manner, was in on-farm storage and has been sold, or was sold to other than a disinterested third party:

## Special Provisions 2025 and Succeeding Crop Years

Year: 2025

Commodity: Safflower (0049)

U.S. Marketing Year: 2024/25

Date: 11/19/2024

Plan: APH (90)

County: Washington (087)

- i. The applicable DFs included in sections A or B2 above.
- ii. The applicable DFs included in sections A or B2 above.
- iii. The applicable DFs included in sections A or B3 above.

DFs for Aflatoxin:

Aflatoxin Range	DF
0.000 - 0.099 ppb	.000
0.100 - 0.199 ppb	.100
0.200 - 0.299 ppb	.200
0.300 - 0.399 ppb	.300
0.400 - 0.499 ppb	.400
300.1 ppb & above	See C3 below

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any substances or conditions qualifying under section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be completed.
  - a. The following will apply (if such production is Zero Market Value, see section D):
    - i. The disinterested third party; or
    - ii. The applicable DFs included in sections A or B2 above.
  - b. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a commercial storage prior to being sold.
    - i. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a commercial storage prior to being sold.
    - ii. .500 for production that was in on-farm storage and was later sold, was in on-farm storage and was transported to commercial storage and later sold.

## Special Provisions 2025 and Succeeding Crop Years

Year: 2025  
Date: 11/19/2024

Commodity: Safflower (0049)  
Plan: APH (90)

Upland Cotton AFD  
County: Washington (087)

- c. If the quality of the production is unacceptable to us, such production will not be adjusted for any quality deficiencies listed in section C.
- d. If production under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

### ZERO MARKET VALUE PRODUCTION

If the quality of the production is unacceptable to us, such production will not be adjusted for any quality deficiencies listed in Section C.

1. If the quality of the production is unacceptable to us, such production will not be adjusted for any quality deficiencies listed in Section C.
2. If the quality of the production is unacceptable to us, such production will not be adjusted for any quality deficiencies listed in Section C.
3. If the quality of the production is unacceptable to us, such production will not be adjusted for any quality deficiencies listed in Section C.

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-A Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Insold-A Grain that does not meet the definition of %sold.
