Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2025 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Price

Contract price:

You may use a contract price to determine your insurance guarantee when a contract price code of ~~yes~~/~~no~~ exists on the Prices tab in the actuarial documents for the crop, type, and practice.

Contract price authority (i.e., rules governing the use of contract prices and the method to determine a contract price) will be found in one of the following three places, listed in priority order:

1. Special Provisions, separate from this statement, which authorizes the use of the Contract Price Addendum (CPA);
2. Crop Provisions; or
3. CPA.

When the contract price code is ~~yes~~/~~no~~ on the Prices tab for the crop, type, and practice:

1. If the Crop Provisions or Special Provisions provide the contract price authority, your price will be determined in accordance with the Crop Provisions or Special Provisions. If neither the Crop Provisions or Special Provisions provide contract price authority, your price will be determined in accordance with the CPA; and
2. The Crop Provisions or Special Provisions may only provide contract price authority for specific types or practices. When this occurs, the CPA may be used to determine a contract price for other types or practices where contract price authority is not provided through the Crop Provisions or these Special Provisions.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

County: Bonneville (019)

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:

- a. If the production is sold to a buyer who is not a disinterested third party, the DF for production qualifying for quality adjustment will be the DF for the production sold to the buyer.
- b. If the production is sold to a buyer who is a disinterested third party, the DF for production qualifying for quality adjustment will be the DF for the production sold to the buyer.
- c. If the production is sold to a buyer who is a disinterested third party, the DF for production qualifying for quality adjustment will be the DF for the production sold to the buyer.

1. OPTION TO DELAY CLAIM SETTLEMENT:

- a. On the date of final inspection for the unit, if any of your unsold**** production qualifies for quality adjustment under sections B and/or C1 or C2a ii and C2a iv below, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- b. If you elect to delay settlement of your claim, you must submit a written statement to the AIP within 60 days after the calendar date for the EOIP. The statement must contain the following information:
 - i. The date of final inspection for the unit.
 - ii. The date of harvest for the production.
 - iii. The date of sale of the production.
 - iv. The date of settlement of your claim.
- c. At any time during this delay in settlement, you may request to settle your claim for any unsold production using the applicable DFs.
- d. For any production sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- e. If the production is later sold, we will not recalculate or adjust your claim for indemnity.
- f. If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
- g. If you elect to delay settlement of your claim, you must submit a written statement to the AIP within 60 days after the calendar date for the EOIP.

OPTION TO DELAY CLAIM SETTLEMENT:

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period (EOIP).

OPTION TO DELAY CLAIM SETTLEMENT:

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period (EOIP).

QA samples for quality adjustment will be taken from the crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under section A, in which case, only the DF(s) in section A claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not harvest the crop.

1. QUALITY ADJUSTMENT STATEMENT

Quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for quality adjustment. If a producer's crop is determined to have a quality deficiency, the producer must submit a claim for quality adjustment to the insurance company within 60 days after the EOIP. The claim must include a statement of the quality deficiency and the amount of the claim. The insurance company will determine the amount of the claim based on the quality deficiency and the amount of the claim. The insurance company will pay the claim to the producer within 30 days after the date of the claim.

5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

Except as allowed in paragraph 7f ii below, fair consideration to deliver sold production to a distant market is allowed only when there are no buyers in your local market for the crop. If there are buyers in your local market for the crop, you must sell the crop to those buyers. If there are no buyers in your local market for the crop, you may sell the crop to a distant market. The distant market must be a disinterested third party, fed, utilized in any other manner, or when a pre-established DF is applicable.

6. ZERO MARKET VALUE

If on the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be eligible for quality adjustment. The production must be determined to have zero market value by the insurance company. The insurance company will determine the amount of the claim based on the zero market value and the amount of the claim. The insurance company will pay the claim to the producer within 30 days after the date of the claim.

7. REDUCTION IN VALUE (RIV):

Moisture content; Damage due to uninsured causes;
