General

*1 Mulch is defined under this practice as a plastic film that is placed on the beds prior to planting the tomato crop and remains until after harvest is complete.

In accordance with section 3(d) of the Guaranteed Production Plan of Fresh Market Tomato Crop Insurance Provisions, the stages and production guarantees for CHERRY, GRAPE, ROMA, and PLUM type tomatoes will be the same as specified in section 3(b)(2).

In accordance with section 12(b)(2) of the Guaranteed Production Plan of Fresh Market Tomato Crop Insurance Provisions, the replanting payment per acre for CHERRY, GRAPE, ROMA, and PLUM tomatoes will be the same as specified in section 12(b)(1).

A classification size minimum of 3/4 inch in diameter for CHERRY tomatoes applies to the definition of potential production under section 1 and section 13(c)(1)(iii)(B) and (c)(2)(ii)(B) of the Guaranteed Production Plan of the Fresh Market Tomato Crop Provisions.

A classification size minimum of 1/2 (one half) inches in diameter for GRAPE tomatoes applies to the definition of potential production under section 1 and section 13(c)(1)(iii)(B) and (c)(2)(ii)(B) of the Guaranteed Production Plan of Fresh Market Tomato Crop Provisions.

A classification size minimum of 1.5 inches in diameter and 2.0 inches in length for PLUM and ROMA tomatoes applies to the definition of potential production under section 1 and section 13 (c)(1)(iii)(B) and (c)(2)(ii)(B) of the Guaranteed Production Plan of Fresh Market Tomato Crop Provisions.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

County: Washington (179)

Price

Contract price:

You may use a contract price to determine your insurance guarantee when a contract price code of ~~yes~~ exists on the Prices tab in the actuarial documents for the crop, type, and practice.

Contract price authority (i.e., rules governing the use of contract prices and the method to determine a contract price) will be found in one of the following three places, listed in priority order:

1. Special Provisions, separate from this statement, which authorizes the use of the Contract Price Addendum (CPA);
2. Crop Provisions; or
3. CPA.

When the contract price code is ~~yes~~ on the Prices tab for the crop, type, and practice:

1. If the Crop Provisions or Special Provisions provide the contract price authority, your price will be determined in accordance with the Crop Provisions or Special Provisions. If neither the Crop Provisions or Special Provisions provide contract price authority, your price will be determined in accordance with the CPA; and
2. The Crop Provisions or Special Provisions may only provide contract price authority for specific types or practices. When this occurs, the CPA may be used to determine a contract price for other types or practices where contract price authority is not provided through the Crop Provisions or these Special Provisions.

Insurance Availability

In lieu of section 8(e)(4) of the Guaranteed Production Plan of Fresh Market Tomato Crop Provisions, and in accordance with section 8(e) of these crop provisions, CHERRY, GRAPE, ROMA, AND PLUM type tomatoes will be insurable in this county.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.
