General

Raw sugar content percentage for use in adjusting harvested production or unharvested production that is appraised after the earliest delivery date that the processor accepts harvested production as provided in the Sugar Beet Crop Provisions: 16.2 percent.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

In accordance with section 12(a) of the Sugar Beet Crop Provisions, the amount of the replanting payment per acre will be the amount shown in the Prevented Planting and Replanting Payment tab, multiplied by your insured share. The actual cost will not be used to determine replanting payments.

In addition to section 14(d) and 14(e) of the Sugar Beet Crop Provisions, refer to loss procedures for sugar beet production that does not meet minimum acceptable standards contained in the processor contract.

In accordance with the definition of full maturity (date of) in section 1 of the Sugar Beet Crop Provisions, the date sugar beets would have reached full maturity will be April 13th.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Date: 4/2/2025

Commodity: Sugar Beets (0039)
Plan: APH (90)

Use All Data: ☒ Yes
County: Imperial (025)

Price

Contract price:

You may use a contract price to determine your insurance guarantee when a contract price code of ~~%yes/~~ exists on the Prices tab in the actuarial documents for the crop, type, and practice.

Contract price authority (i.e., rules governing the use of contract prices and the method to determine a contract price) will be found in one of the following three places, listed in priority order:

1. Special Provisions, separate from this statement, which authorizes the use of the Contract Price Addendum (CPA);
2. Crop Provisions; or
3. CPA.

When the contract price code is ~~%yes/~~ on the Prices tab for the crop, type, and practice:

1. If the Crop Provisions or Special Provisions provide the contract price authority, your price will be determined in accordance with the Crop Provisions or Special Provisions. If neither the Crop Provisions or Special Provisions provide contract price authority, your price will be determined in accordance with the CPA; and
2. The Crop Provisions or Special Provisions may only provide contract price authority for specific types or practices. When this occurs, the CPA may be used to determine a contract price for other types or practices where contract price authority is not provided through the Crop Provisions or these Special Provisions.

Insurance Availability

In accordance with section 9(a) of the Sugar Beet Crop Provisions, insurance will not attach on acreage in any crop year following discovery of rhizomania unless planted to a rhizomania resistant variety approved by the contracting sugar beet company.

In accordance with section 9(a) of the Sugar Beet Crop Provisions, insurance will not attach to any acreage on which sugar beets were grown the preceding crop year unless provided by written agreement.
