General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Special Provisions

2026 and Succeeding Crop Years

| | | |
|-----------------|--|----------------------|
| Year: 2026 | Commodity: Wheat (0011) | Upland, 40 JD |
| Date: 6/17/2025 | Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03) | County: Taylor (173) |

Insurance Availability

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For any production qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the following conditions:

For any production qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the following conditions:

For any production qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the following conditions:

For any production qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the following conditions:

For any production qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the following conditions:

For any production qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the following conditions:

Special Provisions 2026 and Succeeding Crop Years

| | | |
|-----------------|--|----------------------|
| Year: 2026 | Commodity: Wheat (0011) | Use: 1000, 20 JD |
| Date: 6/17/2025 | Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03) | County: Taylor (173) |

☐ If production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

V@ΔF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in
