General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Date

- *4 If you have selected the winter coverage endorsement (WCE) for the winter types, the following dates applicable to your policy are specified in the Options section within the Dates tab of the Actuarial Information Browser:
- 1) The sales closing date [applicable for both winter and spring types];
 - 2) The final planting date for acreage covered under the WCE and the WCE will not be applicable to acreage planted after this date; and
 - 3) The acreage reporting date for acreage of the winter types covered by this option.

Price

- *5 The Base (contracted) Price will not include added value attributable to hauling expenses beyond the local marketing area or post production operations such as processing (cleaning/drying), sorting, packaging, etc.

Special Provisions

2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: Malting AFI D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Jerome (053)

Insurance Availability

Barley or oats planted with or as a mixture of small grains. Such mixture of small grains will be insurable corresponding to the predominate grain in the mixture (barley or oats).

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

- *9 Approved malting barley varieties will include all varieties recommended for malting by the American Malting Barley Association for the current crop year, or any variety grown under the terms of a malting barley contract. See the definition of "contract" in the applicable Malting Barley Endorsement.
- *10 In lieu of section 7(a)(2)(iii) of the Small Grains Crop Provisions, any acreage of fall planted barley not covered by the winter coverage endorsement is not insured unless you request such coverage by notifying your crop insurance agent on or before the spring sales closing date and we determine in writing that the acreage has an adequate stand in the spring to produce the yield used to determine your production guarantee. Insurance will attach to such acreage on the date we determine an adequate stand exists or on the spring final planting date if we do not inspect the acreage by the spring final planting date.
- *11 Approved winter barley varieties for the winter coverage endorsement include only the following: Alba, Boyer, Charles, Eight-Twelve, Endeavor, Hesk, Hoody, Hundred, Kamiak, Kold, Maja, Mal, Scio, Schuyler, Sprinter, Strider, Sunstar Pride, Thunder, Wintmalt and other cultivars approved in writing by FCIC.

Revenue Protection

There are three ways to insure malting barley: (1) Under yield protection or revenue protection, based on a price calculated in accordance with the Commodity Exchange Price Provisions, as applicable; (2) Under yield protection or revenue protection with added protection provided in accordance with the Malting Barley Endorsement (MBE); or (3) under yield protection, based on a price contained in a production contract as indicated below.

If you produce any of the following specialty barley type(s) (including specialty type(s) grown for seed):

- a) Malting - varieties recommended for malting by the American Malting Barley Association for the current crop year, or any variety grown under the terms of a malting barley contract. Winter and Spring will be separate specialty types if separate type codes exist in the county.
- b) Waxy Hulled - having a waxy appearance and an adhering palea and lemma.
- c) Waxy Hulless - having a waxy appearance and a non-adhering palea and lemma.

Special Provisions

2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: Malting AFI D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Jerome (053)

d) Hulless - having a non-adhering palea and lemma, not including waxy hulless barley.

You may elect to exclude coverage for the specialty type(s) under revenue protection (excluding malting barley insured under the MBE) provided you purchase, from the same approved insurance provider, yield protection for the excluded type(s). The yield protection plan of insurance you purchase may have a different coverage level or percentage of projected price than you have for the revenue protection plan of insurance. You may exclude any or all of the specialty type(s) you produce; however, you must continue to insure all type(s) not excluded under revenue protection.

Revenue Protection with HPE

There are three ways to insure malting barley: (1) Under yield protection or revenue protection, based on a price calculated in accordance with the Commodity Exchange Price Provisions, as applicable; (2) Under yield protection or revenue protection with added protection provided in accordance with the Malting Barley Endorsement (MBE); or (3) under yield protection, based on a price contained in a production contract as indicated below.

If you produce any of the following specialty barley type(s) (including specialty type(s) grown for seed):

a) Malting - varieties recommended for malting by the American Malting Barley Association for the current crop year, or any variety grown under the terms of a malting barley contract. Winter and Spring will be separate specialty types if separate type codes exist in the county.

b) Waxy Hulled - having a waxy appearance and an adhering palea and lemma.

c) Waxy Hulless - having a waxy appearance and a non-adhering palea and lemma.

d) Hulless - having a non-adhering palea and lemma, not including waxy hulless barley.

You may elect to exclude coverage for the specialty type(s) under revenue protection (excluding malting barley insured under the MBE) provided you purchase, from the same approved insurance provider, yield protection for the excluded type(s). The yield protection plan of insurance you purchase may have a different coverage level or percentage of projected price than you have for the revenue protection plan of insurance. You may exclude any or all of the specialty type(s) you produce; however, you must continue to insure all type(s) not excluded under revenue protection.

Yield Protection

If you produce any of the following specialty barley type(s) (including specialty type(s) grown for seed):

a) Malting - varieties recommended for malting by the American Malting Barley Association for the current crop year, or any variety grown under the terms of a malting barley contract. Winter and Spring will be separate specialty types if separate type codes exist in the county.

b) Waxy Hulled - having a waxy appearance and an adhering palea and lemma.

c) Waxy Hulless - having a waxy appearance and a non-adhering palea and lemma.

The contract must be executed by you and the business enterprise, in effect for the crop year, and you must provide a copy to us no later than the acreage reporting date. To be considered a contract, the executed document must contain:

(a) A requirement that you plant, grow and deliver specialty type barley to the business enterprise;

(b) The amount of production that will be accepted or a statement that all production from a specified number of acres will be accepted. To determine the number of acres under contract:

(1) For acreage only based contracts and, acreage and production contracts which specify a maximum number of acres, the lesser of:

- (i) The insured acres (planted acreage and acreage that is prevented from being planted); or
- (ii) The maximum number of acres specified in the contract.

(2) For production only based contracts, the lesser of:

- (i) The number of acres determined by dividing the production stated in the contract by the approved yield; or
- (ii) The insured acres (planted acreage and acreage that is prevented from being planted).

(3) Acreage in excess of (1) or (2) shall be considered acreage not under contract.

(c) The price to be paid for the contracted production or a method to determine such price:

(1) If the contract provides for a premium amount over a

(i) Feed barley price to be determined after the acreage reporting date, the contract price will be the result of adding the premium amount to the published projected price on the acreage reporting date; or

(ii) Price other than a feed barley price that is determined after the acreage reporting date, the contract price will be the result of adding the basis or premium amount to

- ## SECTION D - ZERO MARKET VALUE PRODUCTION

14

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: Malting AFI D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Jerome (053)

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-As a person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-Grain that does not meet the definition of %Sold.

In accordance with section 6(a)(2)(ii) of the MBE, malting barley insured under a malting barley price agreement is eligible for quality adjustment if rejected by the buyer due to insurable causes AND the production failed to meet one or more of the following quality requirements.

Malting Barley Price Agreement Quality Standards

Å	Six-rowed Malting Barley	Two-rowed Malting Barley
