General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: 1111 [1 @ 0 0 1] 3 2 0 1 D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Mecklenburg (119)

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

1. OPTION TO DELAY CLAIM SETTLEMENT:

- U) If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- Unless you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- U) If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- Unless you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
- V) If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.

2. EXTENSION OF TIME TO HARVEST

U) If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.

3. EXTENSION OF TIME TO HARVEST

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of insurance period (EOIP).

Q) If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: 100% for feed
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Mecklenburg (119)

4. DELAY IN MEASUREMENT OF FARM STORED PRODUCTION

Quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for payment. If a producer determines that quality deficiencies exist, they must be reported to the USDA within 60 days of the EOIP. If a producer fails to report quality deficiencies within this time frame, the production will be considered to be of standard quality for payment purposes.

5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

When a producer determines that their production is of standard quality, they may elect to deliver the production to a distant market. If the producer elects to do so, they must provide a fair consideration to the distant market. The fair consideration is determined by the difference between the market value of the production and the cost of delivery to the distant market.

6. ZERO MARKET VALUE

If on the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be eligible for payment. The producer must provide a fair consideration to the distant market for the production.

7. REDUCTION IN VALUE (RIV):

The RIV is calculated as follows:

- a. Moisture content;
- b. Damage due to uninsured causes;
- c. Drying;
- d. Handling;
- e. Processing; or
- f. If the producer elects to deliver the production to a distant market, the RIV is calculated as follows:
 - i. $RIV = (MV - DC) \times (1 - R)$
 - ii. If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the

Special Provisions 2026 and Succeeding Crop Years

Ùæ^kmp[:o@Oæ[|ā æCİ D

County: Mecklenburg (119)

- iv. The RIV and local market price* are determined on the date such quality adjusted production is sold to a disinterested third party.

 - iii. If a producer has a level of a substance or condition with a level less than the maximum allowable, and the producer has put into commercial storage without going into on farm storage, the DF will be the sum of the applicable DFs included in sections A or B2 above, plus the applicable DFs included in sections A or B2 above, plus the applicable DFs included in sections A or B2 above.

DFs for Aflatoxin:

Special Provisions 2026 and Succeeding Crop Years

Year: 2026
Date: 6/17/2025

Commodity: Barley (0091)
Plan: Yield Protection (01)
Revenue Protection (02)
Revenue Prot with Harvest Price Exclusion (03)

Use MAP to Confirm
County: Mecklenburg (119)

Aflatoxin Range	DF
0.0 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

À

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed
 - a. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disallowed.
 - i. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disallowed.
 - ii. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disallowed.
 - b. For production containing Aflatoxin or any other substances or conditions (except for production containing Vomitoxin as detailed in C3 a above), the DF will be:
 - i. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disallowed.
 - ii. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disallowed.
 - c. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disallowed.
 - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period, the claim will be reduced by the percentage of the claim that is disallowed.

SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disallowed.

1. If the level of Aflatoxin or Vomitoxin is in excess of the maximum amount allowed, the claim will be reduced by the percentage of the claim that is disallowed.
