## Special Provisions 2026 and Succeeding Crop Years

Year: 2026

Commodity: Canola (0015)

Use: 000000 AF D

Date: 6/17/2025

Plan: Yield Protection (01)

County: Bannock (005)

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

### Practice

\*4 The current crop year:

1. The acreage must not have been planted to a crop (excluding a cover crop, see exceptions below) during the preceding crop year; and
2. Any plant growth, including weeds, volunteer crops, existing perennial vegetation (including acreage emerging from USDA programs (such as CRP) and/or
3. Any additional plant re-growth must be terminated on or before June 1, and any later plant growth (e.g. weeds, volunteer crop) must be controlled by mechanical or chemical means.

(b) The following are exceptions to these requirements:

1. Failed Crop Exception: Acreage will qualify as summerfallow the current crop year, if a crop (excluding a cover crop) was planted the preceding crop year:
  - i. On acreage qualifying as summerfallow; and
  - ii. Was not harvested; and
  - iii. Failed and was terminated on or before June 1, and any later plant growth was controlled by mechanical or chemical means.
2. Cover Crop Exception: Acreage will qualify for the summerfallow practice in the current crop year if a cover crop was planted during the preceding crop year, provided the cover crop was:
  - i. Not hayed, grazed, cut for silage, haylage, or baleage or harvested for grain seed; and
  - ii. Terminated according to the NRCS Cover Crop Termination Guidelines and any later plant growth was controlled by mechanical or chemical means.

### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

## Special Provisions 2026 and Succeeding Crop Years

Ùæ^kMga@ÁFÎD

County: Bannock (005)

Cultivars of Brassica Juncea meeting US Standards for Grain as canola, e.g. Juncea Canola are eligible for insurance under the Canola and Rapeseed Crop Provisions and are not insurable under the Mustard Crop Provisions.

\*9 Insurance shall not attach or be considered to have attached without a written agreement to a planted non-irrigated crop on acreage from which, in the same calendar year:

- Termination means growth has ended. To qualify for a written agreement, you must provide a minimum of the most recent three years of your double cropping actual production history for the crop in the county. A cover crop is one that meets the criteria outlined in the Insurance Availability section of these Special Provisions.

GENERAL STATEMENTS:

[illegible]

Production qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under

OPTION A

For any production qualifying under section B or C (except for section C3) that is sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the

For production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in

- a. ...
b. Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
c. ...

1. OPTION TO DELAY CLAIM SETTLEMENT:

- a. ...
b. ...
c. At any time during this delay in settlement, you may request to settle your claim for any unsold production using the applicable DFs.
d. ...
e. If the production is later sold, we will not recalculate or adjust your claim for indemnity.
f. If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
g. This option will not apply to any production qualifying under section C3.

OPTION B

Only when it has been determined that the production qualifies for quality adjustment will the provisions in this Quality Adjustment Statement apply, otherwise this SP

  - i. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
  - ii.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$
- b.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$  will be:
  - i. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
  - ii.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$
- c.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$ 
  - i. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
  - ii.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$
- d. If production qualifying under Section C3 remains unsold, or is not destroyed more than 365 days after the calendar date for the end of insurance period,  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$

### ZERO MARKET VALUE PRODUCTION

For production listed in sections A, B, or C that we determine has zero market value due to insured quality deficiencies:

1.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$
2.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$  and will be adjusted as follows:
  - a. For production in Section A. The pre-established DFs.
  - b.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$
  - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3.  $\frac{RIV}{\text{Local Market Price}} \times \text{Quality Deficiency} \times \text{Production}$

## Special Provisions

### 2026 and Succeeding Crop Years

Year: 2026	Commodity: Canola (0015)	Use: Willaqui AF D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Bannock (005)

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-As a person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer
*****	%Insold-Grain that does not meet the definition of %Sold.
