### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

### Type

\*4 Khorasan (T. turanicum) is not insurable under the spring type. Khorasan is only insurable by written agreement as the Khorasan type.

### Date

\*5 In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

\*6 If you have selected the winter coverage endorsement (WCE) for acreage planted to the winter type, the following dates applicable to your policy are specified in the 'Options' section within the 'Dates' tab of the Actuarial Information Browser:

- 1) The final planting date (the WCE will not be applicable to acreage planted after this date) and
- 2) The acreage reporting date.

## Special Provisions 2026 and Succeeding Crop Years

Uæ^ kMg æQ AFI D

County: Madison (065)

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Insurance shall not attach or be considered to have attached without a written agreement to a planted non-irrigated crop on acreage from which, in the same calendar year:

- Termination means growth has ended. To qualify for a written agreement, you must provide a minimum of the most recent three years of your double cropping actual production history for the crop in the county. A cover crop is one that meets the criteria outlined in the Insurance Availability section of these Special Provisions.

GENERAL STATEMENTS:

Ú[ [ à ~ 8cā } Áqualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under Ú^ 8cā } • Ácā [ Ácā ~ Á [ cā cā

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026

Commodity: Wheat (0011)

Unit: 1000 bushels

Date: 6/17/2025

Plan: Yield Protection (01)  
Revenue Protection (02)

County: Madison (065)

Revenue Prot with Harvest Price Exclusion (03)

The AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

Any production qualifying under section B or C (except for section C3) that is sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the EOIP, will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.

Production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.

- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.

A

### 1. OPTION TO DELAY CLAIM SETTLEMENT

- On the date of final inspection for the unit, if any of your unsold\*\*\*\* production qualifies for quality adjustment under sections B and/or C1 or C2a ii and C2a iv below, your claim will be settled using the applicable DF's for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- For any production sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- For any production sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- For any production sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- For any production sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- For any production sold\*\*\*\* to other than a disinterested third party\*\*, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.

later than 30 days after the 180th day.

sold to other than a disinterested third party, fed, utilized in any other manner, or when a pre-established DF is applicable.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026

Commodity: Wheat (0011)

Use: 0000000000

Date: 6/17/2025

Plan: Yield Protection (01)

County: Madison (065)

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

### 6. ZERO MARKET VALUE

On the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value\*\*\*, such production will not be eligible for a revenue protection payment, except for production fed or used in any other manner.

### 7. REDUCTION IN VALUE (RIV):

For a unit of production, the RIV is the difference between the normal harvest price and the actual harvest price, multiplied by the normal harvest yield.

- a. Moisture content;
- b. Damage due to uninsured causes;
- c. Drying;
- d. Handling;
- e. Processing; or
- f. Any other costs associated with normal harvesting, handling, and marketing of your production.
  - i. RIVs cannot be used in combination with chart DFs.
  - ii. For a unit of production, the RIV is the difference between the normal harvest price and the actual harvest price, multiplied by the normal harvest yield, provided the resulting RIV does not exceed the RIV in your local marketing area.
  - iii. For a unit of production, the RIV is the difference between the normal harvest price and the actual harvest price, multiplied by the normal harvest yield, provided the resulting RIV does not exceed the RIV before conditioning.
  - iv. For a unit of production, the RIV is the difference between the normal harvest price and the actual harvest price, multiplied by the normal harvest yield, provided the resulting RIV does not exceed the RIV before conditioning.

### SECTION A - DISCOUNT FACTOR CHARTS

For a unit of production, the RIV is the difference between the normal harvest price and the actual harvest price, multiplied by the normal harvest yield, provided the resulting RIV does not exceed the RIV in your local marketing area.

For a unit of production, the RIV is the difference between the normal harvest price and the actual harvest price, multiplied by the normal harvest yield, provided the resulting RIV does not exceed the RIV before conditioning.

County: Madison (065)

- DFs for Vomitoxin:

2. If a lot of a substance or condition has a level less than the maximum allowable, adjust the production in the following manner.

- If a lot of a substance or condition is put into commercial storage without going into on farm storage, the DF will be:
  - all insurable quality deficiencies, and that value divided by the local market price.
  - C2b (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A or B2 above.
  - For unsold production containing all other mycotoxins or substances or conditions prior to 60 days after the calendar date for the EOIP (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A, or B2 above.
- For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, added to the applicable DFs included in sections A, or B2 above.
