Special Provisions 2026 and Succeeding Crop Years

Year: 2026

Commodity: Canola (0015)

Underwriter: C & A OFD

Date: 6/17/2025

Plan: Yield Protection (01)

County: Daviess (059)

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

Production qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the following provisions:

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

For any production qualifying under section B or C (except for section C3) that is sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the end of the insurance period, the DF for production qualifying for quality adjustment shall be determined in accordance with the following provisions:

For production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following provisions:

- a. The DF for production qualifying for quality adjustment shall be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- b. Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- c. The DF for production qualifying for quality adjustment shall be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.

1. OPTION TO DELAY CLAIM SETTLEMENT:

- a. Unless otherwise specified, your claim will be settled using the applicable DFs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- b. If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, you must provide written notice to the underwriter within 60 days after the calendar date for the EOIP.
- c. At any time during this delay in settlement, you may request to settle your claim for any unsold production using the applicable DFs.
- d. If you elect to delay settlement of your claim for up to 60 days after the calendar date for the EOIP, you must provide written notice to the underwriter within 60 days after the calendar date for the EOIP.
- e. If the production is later sold, we will not recalculate or adjust your claim for indemnity.
- f. If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.

g. This option will not apply to any production qualifying under section C3.

QUALITY ADJUSTMENT STATEMENT

Only when it has been determined that the production qualifies for quality adjustment will the provisions in this Quality Adjustment Statement apply, otherwise this SP statement does not supersede the provisions contained in section 14(e) in the Basic Provisions.

EOIP

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of insurance period (EOIP).

If we determine you are prevented from harvesting by the calendar date for the EOIP due to an insurable cause of damage that occurred during the insurance period and we allow an extension of time to harvest, the time to determine insurable quality deficiencies will also be extended to 60 days after the EOIP. All samples for QA { • • • } must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP. If you are prevented from harvesting your crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A, claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not harvest. If you are prevented from harvesting your crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A, claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not harvest.

QUALITY ADJUSTMENT STATEMENT

QA { • • • } must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for indemnity. If you are prevented from harvesting your crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A, claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not harvest.

QUALITY ADJUSTMENT STATEMENT

QA { • • • } must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for indemnity. If you are prevented from harvesting your crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A, claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not harvest.

Above 25	See section B

SAMPLE GRADE DISCOUNTS:

0.5% for each percentage point of damage in excess of 20% up to 25%.

DEFICIENCY NOT IN DISCOUNT FACTOR CHARTS

For any deficiency not listed in the charts, the discount factor will be .500 unless you elect to delay settlement as specified in the General Statements above.

1. The value of the deficiency will be the difference between the local market price for the insured crop and the local market price for the insured crop with the deficiency, and that value divided by the local market price.
2. For unsold production or production sold to other than a disinterested third party prior to 60 days after the calendar date for the EOIP, the DF will be .500 (unless you elect to delay settlement as specified in the General Statements above).
3. The value of the deficiency will be the difference between the local market price for the insured crop and the local market price for the insured crop with the deficiency, and that value divided by the local market price.

DEFICIENCY NOT IN DISCOUNT FACTOR CHARTS

The sum of all DFs for production containing substances or conditions identified by the Food and Drug Administration, other public health organizations of the United States, or a public health agency of the applicable State in which the insured crop is grown, at a level determined as injurious to human or animal health, will be covered only if the appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the

appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the

Any potential loss due to substances or conditions identified by the Food and Drug Administration, other public health organizations of the United States, or a public health agency of the applicable State in which the insured crop is grown, at a level determined as injurious to human or animal health, will be covered only if the appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the

Revenue Prot with Harvest Price Exclusion (03)

Unit: 1000 bushels
County: Daviess (059)

On the date of final adjustment for the unit, the following will apply (if such production is Zero Market Value, see Section D):

- a. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
 - ii. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
- b. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
 - ii. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
- c. If production qualifying under Section C3 remains unsold, or is not destroyed more than 365 days after the calendar date for the end of insurance period,
 - ii. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
- d. If production qualifying under Section C3 remains unsold, or is not destroyed more than 365 days after the calendar date for the end of insurance period,

ZERO MARKET VALUE PRODUCTION

For production listed in sections A, B, or C that we determine has zero market value due to insured quality deficiencies:

1. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
2. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
 - a. For production in Section A, the pre-established DFs.
 - b. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
 - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
