General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Special Provisions 2026 and Succeeding Crop Years

Ùæ^kmp[|o@ôæ[|āæçD

County: Camden (029)

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Cultivars of *Brassica carinata* are eligible for insurance under the Canola and Rapeseed Crop Provisions and are not insurable under the Mustard Crop Provisions; however, *Brassica carinata* is only insurable by written agreement.

GENERAL STATEMENTS:

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

Special Provisions 2026 and Succeeding Crop Years

Ùæ^kmp[:o@Oæ[|ā æÄH D

County: Camden (029)

The DF for production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in

- [illegible]

- At any time during this delay in settlement, you may request to settle your claim for any unsold production using the applicable DFs.
- If the production is later sold, we will not recalculate or adjust your claim for indemnity.
- If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
- This option will not apply to any production qualifying under section C3.

Only when it has been determined that the production qualifies for quality adjustment will the provisions in this Quality Adjustment Statement apply, otherwise this SP statement does not supersede the provisions contained in section 14(e) in the Basic Provisions.

Revenue Prot with Harvest Price Exclusion (03)

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of insurance period (EOIP).

If we determine you are prevented from harvesting by the calendar date for the EOIP due to an insurable cause of damage that occurred during the insurance period and we allow an extension of time to harvest, the time to determine insurable quality deficiencies will also be extended to 60 days after the EOIP. The sum of all DFs for production containing substances or conditions that are injurious to human or animal health is allowed, in addition to applicable DFs from sections A or B above, except as shown in C3 below.

Any potential loss due to substances or conditions identified by the Food and Drug Administration, other public health organizations of the United States, or a public health agency of the applicable State in which the insured crop is grown, at a level determined as injurious to human or animal health, will be covered only if the appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the

On the date of final adjustment for the unit, the following will apply (if such production is Zero Market Value, see Section D):

- a. $\frac{\text{RIV applied by buyer due to all insurable quality deficiencies}}{\text{Local market price for production sold to a disinterested third party}}$ or
 - i. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
 - ii. $\frac{\text{RIV applied by buyer due to all insurable quality deficiencies}}{\text{Local market price for production sold to a disinterested third party}}$
- b. $\frac{\text{RIV applied by buyer due to all insurable quality deficiencies}}{\text{Local market price for production sold to a disinterested third party}}$ will be:
 - i. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
 - ii. $\frac{\text{RIV applied by buyer due to all insurable quality deficiencies}}{\text{Local market price for production sold to a disinterested third party}}$
- c. If production qualifying under Section C3 remains unsold, or is not destroyed more than 365 days after the calendar date for the end of insurance period,
 - i. The RIV applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price for production sold to a disinterested third party; or
 - ii. $\frac{\text{RIV applied by buyer due to all insurable quality deficiencies}}{\text{Local market price for production sold to a disinterested third party}}$
- d. If production qualifying under Section C3 remains unsold, or is not destroyed more than 365 days after the calendar date for the end of insurance period,

ZERO MARKET VALUE PRODUCTION

For production listed in sections A, B, or C that we determine has zero market value due to insured quality deficiencies:

1. $\frac{\text{RIV applied by buyer due to all insurable quality deficiencies}}{\text{Local market price for production sold to a disinterested third party}}$
2. $\frac{\text{RIV applied by buyer due to all insurable quality deficiencies}}{\text{Local market price for production sold to a disinterested third party}}$ and will be adjusted as follows:
 - a. For production in Section A . The pre-established DFs.
 - b. $\frac{\text{RIV applied by buyer due to all insurable quality deficiencies}}{\text{Local market price for production sold to a disinterested third party}}$
 - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. $\frac{\text{RIV applied by buyer due to all insurable quality deficiencies}}{\text{Local market price for production sold to a disinterested third party}}$
