General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026

Commodity: Wheat (0011)

Use: 0000 @ AHUD

Date: 6/17/2025

Plan: Yield Protection (01)

County: Harrison (067)

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For all quality adjustment purposes, the net production to count is the production to count after adjustment factors are considered in determining production to count.

For all quality adjustment purposes, the net production to count is the production to count after adjustment factors are considered in determining production to count.

For all quality adjustment purposes, the net production to count is the production to count after adjustment factors are considered in determining production to count.

For all quality adjustment purposes, the net production to count is the production to count after adjustment factors are considered in determining production to count.

For all quality adjustment purposes, the net production to count is the production to count after adjustment factors are considered in determining production to count.
