## General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

In lieu of section 6(b) of the Basic Provisions, you may only choose a protection factor of 120 percent for catastrophic risk protection. However, in accordance with section 8(m) of the Basic Provisions, if you do not submit a production report to us by the production reporting date specified in the actuarial documents, your protection factor for your catastrophic risk protection policy in the following crop year will be limited to the lowest protection factor available. The provisions of section 5(d)(1) of the Basic Provisions are also applicable for catastrophic risk protection on native sod acreage.

Refer to the Prices and Yields tab of these actuarial documents for the date final county revenues and final county yields will be determined. The payment will be issued no later than 30 days after final county revenues and final county yields are determined.
