General

Optional unit division is NOT available by section or section equivalent. Optional unit division is available based on Farm Serial Number (FSN) and any other method specified in the Basic Provisions or Crop Provisions except section or section equivalent. To be eligible for the available methods of optional unit division, you must meet all applicable requirements.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use Year: 2026
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Lincoln (085)

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For the purpose of this section, the term "quality" means the quality of the crop as determined by the quality adjustment factors.

For the purpose of this section, the term "quality adjustment factors" means the factors that are used to determine the quality of the crop. The factors are listed in the following table:

Factor	Description
1. Moisture	The moisture content of the crop at the time of harvest.
2. Temperature	The temperature of the crop at the time of harvest.
3. Pesticide Residues	The presence of pesticide residues in the crop.
4. Other Factors	Any other factors that may affect the quality of the crop.

The quality adjustment factors are used to determine the net production to count. The net production to count is the production of the crop after the quality adjustment factors are applied.

Any production qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the quality adjustment factors.

The AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

Any production qualifying under section B or C (except for section C3) that is sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the end of the insurance period, shall be adjusted under the quality adjustment factors.

Production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the quality adjustment factors.

Only one DF for grade can be applied.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: HRS, SRW, HRW, and HWW
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Lincoln (085)

TEST WEIGHT DISCOUNT:

For all Spring and White Club wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 50 lbs.; U.S. Sample Grade . 45 lbs. and below):

Test Weight Pounds	DF
50 and above	None
49.99-44	See Quality Adjustment Tab for Discount Factors
Below 44	See Section B

For all Hard Red Winter wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 51 lbs.; U.S. Sample Grade . 45 lbs. and below):

Test Weight Pounds	DF
51 and above	None
50.99-44	See Quality Adjustment Tab for Discount Factors
Below 44	See Section B

For all Soft Red Winter wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 51 lbs.; U.S. Sample Grade . 45 lbs. and below):

For all Soft Red Spring wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 51 lbs.; U.S. Sample Grade . 45 lbs. and below):

SRW, HRW, and HWW classes of wheat will be discounted for excessive Defects as follows:

Defects %	DF
15 and below	None
15.01-35	See Quality Adjustment Tab for Discount Factors
Above 35	See section B

SWW, HRS, and DUM classes of wheat will be discounted for excessive Defects as follows:

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: WHT WHT 0011 0011 0011 0011
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Lincoln (085)

Defects %	DF
10 and below	None
10.01-35	See Quality Adjustment Tab for Discount Factors
Above 35	See section B

For all classes of wheat, if the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below, the production is not eligible for any additional discount factor in the Defects Discount Table or the Sprout Damage Discount Table above.

SPROUT DAMAGE DISCOUNT FOR ALL CLASSES

For all classes of wheat, if the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below, the production is not eligible for any additional discount factor in the Defects Discount Table or the Sprout Damage Discount Table above.

Sprout Damage Percent	DF
10 and below	None
10.01 - 15.0	See Quality Adjustment Tab for Discount Factors
Above 15.0	See Section B

FALLING NUMBER DISCOUNTS:

For all classes of wheat, if the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below, the production is not eligible for any additional discount factor in the Defects Discount Table or the Sprout Damage Discount Table above.

In addition to the quality deficiencies allowed in section 11 (d) of the Small Grains Crop Provisions, the following quality factors for Falling Number will apply:

All Other Classes of wheat will be discounted for falling number, regardless of U.S. grade designation as follows:

Falling Number Range	DF
299-200	See Quality Adjustment Tab for Discount Factors
Below 200	See Section B

DFs for Vomitoxin:

Vomitoxin Range	DF
0.1 to 10.0 ppm	See Quality Adjustment Tab for Discount Factors
10.1 ppm & above	See C3 below

2. If the level of a substance or condition is less than the maximum allowable, adjust the production in the following manner.
 - a. If the level of a substance or condition is less than the maximum allowable, the DF will be:
 - i. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of all insurable quality deficiencies, and that value divided by the local market price.
 - ii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A or B2.
 - iii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2, added to the applicable DFs included in sections A or B2.
 - iv. For unsold production containing all other mycotoxins or substances or conditions prior to 60 days after the calendar date for the EOIP (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A, or B2 above.
 - v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, added to the applicable DFs included in sections A or B2 above.
 - b. If the level of a substance or condition is less than the maximum allowable, the DF will be:
 - i. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above.
 - ii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above.
 - iii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B3 above.

DFs for Aflatoxin:

Aflatoxin Range	DF
0.0 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
 - a. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will be adjusted based on the level of the substance or condition.
 - i. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will be adjusted based on the level of the substance or condition.
 - ii. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will be adjusted based on the level of the substance or condition.
 - b. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will be adjusted based on the level of the substance or condition.
 - i. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will be adjusted based on the level of the substance or condition.
 - ii. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will be adjusted based on the level of the substance or condition.
 - c. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will be adjusted based on the level of the substance or condition.
 - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will be adjusted based on the level of the substance or condition.

1. If the level of Aflatoxin is greater than 300 ppb, the level of Vomitoxin is greater than 10 ppm, or the level of any other substance or condition is greater than the maximum amount allowed, the claim will be adjusted based on the level of the substance or condition.
