Special Provisions
2026 and Succeeding Crop Years

Year: 2026 Commodity: Wheat (0011) Use: 0000
Date: 6/17/2025 Plan: Yield Protection (01) County: Mesa (077)
Revenue Protection (02)
Revenue Prot with Harvest Price Exclusion (03)

Table with 3 columns: TP, Type, Practice. Rows include T/P 10 (Spring 012, Summerfallow(OT) 718 *5) and T/P 12 (Spring 012, Organic(Transitional) Irr. 712).

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.
Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.
Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.
In accordance with the definition of "production reporting date" in the Basic Provisions, if you submit an application for insurance after the winter sales closing date or land is added after the production reporting date on which the spring type will be planted, the production reporting date will be the earlier of the acreage reporting date or 45 days after the spring sales closing date.

Practice

- *5 the current crop year:
1. The acreage must not have been planted to a crop (excluding a cover crop, see exceptions below) during the preceding crop year; and
2. Any plant growth, including weeds, volunteer crops, existing perennial vegetation (including acreage emerging from USDA programs (such as CRP) and/or new breaking acreage), must be terminated a full crop year before planting a crop, and
3. Any additional plant re-growth must be terminated on or before June 1, and any later plant growth (e.g. weeds, volunteer crop) must be controlled by mechanical or chemical means.
(b) The following are exceptions to these requirements:
1. Failed Crop Exception: Acreage will qualify as summerfallow the current crop year, if a crop (excluding a cover crop) was planted the preceding crop year:
i. On acreage qualifying as summerfallow; and
ii. Was not harvested; and
iii. Failed and was terminated on or before June 1, and any later plant growth was controlled by mechanical or chemical means.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: HMO [] A [] Q [] D []
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Mesa (077)

2. Cover Crop Exception: Acreage will qualify for the summerfallow practice in the current crop year if a cover crop was planted during the preceding crop year, provided the cover crop was:
 - i. Not hayed, grazed or otherwise harvested; and
 - ii. Terminated according to the NRCS Cover Crop Termination Guidelines and any later plant growth was controlled by mechanical or chemical means.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Premium

- *7 In accordance with section 6 of the Small Grains Crop Provisions, a reduced premium rate is provided for acreage intentionally destroyed before harvest by grazing or other means. To qualify for the reduced premium rate you must notify your agent no later than March 15.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

In lieu of the provisions in section 22(a) of the Basic Provisions that says "[h]owever, unless specifically required by policy provisions, you must not obtain any other crop insurance authorized under the Act on your share of the insured crop," you may obtain a Small Grains Crop Insurance policy and an Annual Forage policy on the same acreage that is planted with the intent of grazing the crop first and then later harvesting the crop for grain.

2. SECTION 14(e) OF THE BASIC PROVISIONS

[illegible]

3. EXTENSION OF TIME TO HARVEST

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period (EOIP).

[illegible]

I ĚÖŠŸÁǾÀÒÈÜÒȮǪVÁUǾCÛÂVUÛÖǾÚUÖWŊP

If you elect to delay measurement of farm stored production as provided in the Basic Provisions, all samples of farm stored production used to determine insurable quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for payment.

Above 15.0	See Section B

FALLING NUMBER DISCOUNTS:

Equipment and procedure used to perform what is generally referred to as a "quick test" as a falling number discount. In the Falling Number Discount Table, the production is not eligible for any further sprout damage discount in the Defects Discount Table or the Sprout Damage Discount Table above.

In addition to the quality deficiencies allowed in section 11 (d) of the Small Grains Crop Provisions, the following quality factors for Falling Number will apply:

All Other Classes of wheat will be discounted for falling number, regardless of U.S. grade designation as follows:

Falling Number Range	DF
299-200	See Quality Adjustment Tab for Discount Factors

Special Provisions

2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Upland Cotton (002)
Date: 6/17/2025	Plan: Yield Protection (01)	County: Mesa (077)
	Revenue Protection (02)	
	Revenue Prot with Harvest Price Exclusion (03)	

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-A Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-A Grain that does not meet the definition of %Sold.
