T/P 6	Winter 011	Organic(Transitional) Irr. 712

#### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

#### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

#### Premium

Any acreage in this county with a high risk area designation on the actuarial map will have a rate adjusted in accordance with the high risk area and map area rates table.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026

Commodity: Wheat (0011)

U.S. FLD

Date: 6/17/2025

Plan: Yield Protection (01)  
Revenue Protection (02)  
Revenue Prot with Harvest Price Exclusion (03)

County: Pickaway (129)

### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

### Quality

#### GENERAL STATEMENTS:

For the purpose of this section, the term "quality" means the quality of the crop as determined by the quality adjustment factors.

For the purpose of this section, the term "quality adjustment factors" means the factors that are used to determine the quality of the crop. The quality adjustment factors are considered in determining production to count.

For the purpose of this section, the term "net production to count" means the production to count after the quality adjustment factors are applied. The net production to count is determined by subtracting the quality adjustment factors from the production to count.

For the purpose of this section, the term "qualifying for quality adjustment" means the production that is eligible for the quality adjustment. The production that is qualifying for quality adjustment is determined by the quality adjustment factors.

For the purpose of this section, the term "extension of time to harvest" means the period of time that is granted to the producer to harvest the crop. The extension of time to harvest is granted by the AIP.

For the purpose of this section, the term "production qualifying under section B or C" means the production that is eligible for the quality adjustment under section B or C. The production that is qualifying under section B or C is determined by the quality adjustment factors.

For the purpose of this section, the term "production qualifying under Sections B or C" means the production that is eligible for the quality adjustment under Sections B or C. The production that is qualifying under Sections B or C is determined by the quality adjustment factors.

For the purpose of this section, the term "production qualifying for quality adjustment" means the production that is eligible for the quality adjustment. The production that is qualifying for quality adjustment is determined by the quality adjustment factors.

#### TEST WEIGHT DISCOUNT:

For all Spring and White Club wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 50 lbs.; U.S. Sample Grade . 45 lbs. and below):

Test Weight Pounds	DF
50 and above	None
49.99-44	See Quality Adjustment Tab for Discount Factors
Below 44	See Section B

For all Hard Red Winter wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 51 lbs.; U.S. Sample Grade . 45 lbs. and below):

Test Weight Pounds	DF
51 and above	None
50.99-44	See Quality Adjustment Tab for Discount Factors
Below 44	See Section B

For all Soft Red Winter wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 51 lbs.; U.S. Sample Grade . 45 lbs. and below):

For all Soft White Winter wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 45 lbs. to 51 lbs.; U.S. Sample Grade . 45 lbs. and below):

SRW, HRW, and HWW classes of wheat will be discounted for excessive Defects as follows:

Defects %	DF
15 and below	None
15.01-35	See Quality Adjustment Tab for Discount Factors
Above 35	See section B

SWW, HRS, and DUM classes of wheat will be discounted for excessive Defects as follows:

Date: 6/17/2025

Commodity: Wheat (0011)  
Plan: Yield Protection (01)  
Revenue Protection (02)  
Revenue Prot with Harvest Price Exclusion (03)

Use: MU @ HUD  
County: Pickaway (129)

DFs for Aflatoxin:

Aflatoxin Range	DF
0.0 to 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
  - a. If the level of Aflatoxin or Vomitoxin is less than 300 ppb or 10 ppm, respectively, and the production is sold, fed, utilized in any other manner, or destroyed, the claim will be adjusted based on the quality deficiency factors listed in Section C.
    - i. If the production is sold, fed, utilized in any other manner, or destroyed, and the claim is for a third party, the claim will be adjusted based on the quality deficiency factors listed in Section C.
    - ii. If the production is sold, fed, utilized in any other manner, or destroyed, and the claim is for the insured, the claim will be adjusted based on the quality deficiency factors listed in Section C.
  - b. If the level of Aflatoxin or Vomitoxin is 300 ppb or 10 ppm, respectively, and the production is sold, fed, utilized in any other manner, or destroyed, the claim will be:
    - i. If the production is sold, fed, utilized in any other manner, or destroyed, and the claim is for a third party, the claim will be adjusted based on the quality deficiency factors listed in Section C.
    - ii. If the production is sold, fed, utilized in any other manner, or destroyed, and the claim is for the insured, the claim will be adjusted based on the quality deficiency factors listed in Section C.
  - c. If the level of Aflatoxin or Vomitoxin is 300 ppb or 10 ppm, respectively, and the production is sold, fed, utilized in any other manner, or destroyed, the claim will be adjusted based on the quality deficiency factors listed in Section C.
  - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

### SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of Aflatoxin or Vomitoxin is 300 ppb or 10 ppm, respectively, and the production is sold, fed, utilized in any other manner, or destroyed, the claim will be adjusted based on the quality deficiency factors listed in Section C.

1. If the production is sold, fed, utilized in any other manner, or destroyed, and the claim is for a third party, the claim will be adjusted based on the quality deficiency factors listed in Section C.
