In accordance with section 2(b)(2) of the Texas Citrus Tree Crop Provisions, the minimum distance and acreage required to qualify a separate grove as an optional unit are one (1) mile and ten (10) acres. The distance requirement between optional units will be established based on the closest location of between separate groves. Any groves that are within a one-mile distance of each other will be combined into a single optional unit. A separate grove meeting the distance requirement but with less than 10 acres will be combined with the nearest optional unit. Additional optional units for separate grove locations may be established in accordance with FCIC approved procedures.
