General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

In accordance with the definition of "production reporting date" in the Basic Provisions, if you submit an application for insurance after the winter sales closing date or land is added after the production reporting date on which the spring type will be planted, the production reporting date will be the earlier of the acreage reporting date or 45 days after the spring sales closing date.

Practice

[illegible]

1. The acreage must not have been planted to a crop (excluding a cover crop, see exceptions below) during the preceding crop year; and
2. Any plant growth, including weeds, volunteer crops, existing perennial vegetation (including acreage emerging from USDA programs (such as CRP) and/or new breaking acreage), must be terminated a full crop year before planting a crop, and
3. Any additional plant re-growth must be terminated on or before June 1, and any later plant growth (e.g. weeds, volunteer crop) must be controlled by

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use All or Part of Acre
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Cheyenne (017)

mechanical or chemical means.

(b) The following are exceptions to these requirements:

1. Failed Crop Exception: Acreage will qualify as summerfallow the current crop year, if a crop (excluding a cover crop) was planted the preceding crop year:
 - i. On acreage qualifying as summerfallow; and
 - ii. Was not harvested; and
 - iii. Failed and was terminated on or before June 1, and any later plant growth was controlled by mechanical or chemical means.
2. Cover Crop Exception: Acreage will qualify for the summerfallow practice in the current crop year if a cover crop was planted during the preceding crop year, provided the cover crop was:
 - i. Not hayed, grazed or otherwise harvested; and
 - ii. Terminated according to the NRCS Cover Crop Termination Guidelines and any later plant growth was controlled by mechanical or chemical means.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Premium

- *7 Any acreage in this county with a high risk area designation on the actuarial map will have a rate adjusted in accordance with the high risk area and map area rates table.

Insurance Availability

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use 4440 [1] 1a [3] D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Cheyenne (017)

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Revenue Protection

There are three ways to insure malting barley: (1) Under yield protection or revenue protection, based on a price calculated in accordance with the Commodity Exchange Price Provisions, as applicable; (2) Under yield protection or revenue protection with added protection provided in accordance with the Malting Barley Endorsement (MBE); or (3) under yield protection, based on a price contained in a production contract as indicated below.

If you produce any of the following specialty barley type(s) (including specialty type(s) grown for seed):

- a) Malting - varieties recommended for malting by the American Malting Barley Association for the current crop year, or any variety grown under the terms of a malting barley contract. Winter and Spring will be separate specialty types if separate type codes exist in the county.
- b) Waxy Hulled - having a waxy appearance and an adhering palea and lemma.
- c) Waxy Hulless - having a waxy appearance and a non-adhering palea and lemma.
- d) Hulless - having a non-adhering palea and lemma, not including waxy hulless barley.

You may elect to exclude coverage for the specialty type(s) under revenue protection (excluding malting barley insured under the MBE) provided you purchase, from the same approved insurance provider, yield protection for the excluded type(s). The yield protection plan of insurance you purchase may have a different coverage level or percentage of projected price than you have for the revenue protection plan of insurance. You may exclude any or all of the specialty type(s) you produce; however, you must continue to insure all type(s) not excluded under revenue protection.

Revenue Protection with HPE

There are three ways to insure malting barley: (1) Under yield protection or revenue protection, based on a price calculated in accordance with the Commodity Exchange Price Provisions, as applicable; (2) Under yield protection or revenue protection with added protection provided in accordance with the Malting Barley Endorsement (MBE); or (3) under yield protection, based on a price contained in a production contract as indicated below.

If you produce any of the following specialty barley type(s) (including specialty type(s) grown for seed):

- a) Malting - varieties recommended for malting by the American Malting Barley Association for the current crop year, or any variety grown under the terms of a malting barley contract. Winter and Spring will be separate specialty types if separate type codes exist in the county.
- b) Waxy Hulled - having a waxy appearance and an adhering palea and lemma.
- c) Waxy Hulless - having a waxy appearance and a non-adhering palea and lemma.

Special Provisions 2026 and Succeeding Crop Years

Ùæ^kmo[| :æ[Å€ D

County: Cheyenne (017)

You may elect to exclude coverage for the specialty type(s) under revenue protection (excluding malting barley insured under the MBE) provided you purchase, from the same approved insurance provider, yield protection for the excluded type(s). The yield protection plan of insurance you purchase may have a different coverage level or percentage of projected price than you have for the revenue protection plan of insurance. You may exclude any or all of the specialty type(s) you produce; however, you must continue to insure all type(s) not excluded under revenue protection.

If you produce any of the following specialty barley type(s) (including specialty type(s) grown for seed):

b) Waxy Hulled - having a waxy appearance and an adhering palea and lemma.

d) Hulless - having a non-adhering palea and lemma, not including waxy hulless barley.

(a) A requirement that you plant, grow and deliver specialty type barley to the business enterprise;

(1) For acreage only based contracts and, acreage and production contracts which specify a maximum number of acres, the lesser of:

(i) The insured acres (planted acreage and acreage that is prevented from being planted); or

(ii) The maximum number of acres specified in the contract.

6

Special Provisions

2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use All or Part of Acre
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Cheyenne (017)

(i) The number of acres determined by dividing the production stated in the contract by the approved yield; or

(ii) The insured acres (planted acreage and acreage that is prevented from being planted).

(3) Acreage in excess of (1) or (2) shall be considered acreage not under contract.

(c) The price to be paid for the contracted production or a method to determine such price:

(1) If the contract provides for a premium amount over a

(i) Feed barley price to be determined after the acreage reporting date, the contract price will be the result of adding the premium amount to the published projected price on the acreage reporting date; or

(ii) Price other than a feed barley price that is determined after the acreage reporting date, the contract price will be the result of adding the basis or premium amount to the Malt Barley Endorsement published projected price on the acreage reporting date.

(2) The price used will be the price in the contract without regard to incentives or discounts.

(3) In no case will the contract price exceed the amount determined by multiplying the projected price by the maximum contract price factor shown in the Prices tab in these Actuarial Documents.

(4) If you have more than one contract price for any one specialty type, the price used will be the weighted average of the contract prices. Each contract price is subject to the limits referred to in (c)(3).

(d) Other such terms that establish the obligations of each party to the contract; and

(e) The contract must clearly indicate the specific specialty type or verification must be provided that the contracted variety is one of the specialty types listed above.

Any acreage of the specialty type that is not under a contract per (b)(3) above, or for which a contract is not submitted to us by the acreage reporting date, will be valued at the applicable barley projected price. A weighted average price will be determined from all the contracted and non-contracted acreage of the specialty type, to produce one projected price that will be used in determining the guarantee (per acre), premium, prevented planting payment, replanting payment, and indemnity for the applicable specialty type acreage.

Section 9 - Replanting Payments - If the Small Grains Crop Provisions apply to all insurable barley types.

1. OPTION TO DELAY CLAIM SETTLEMENT:

- a. If you sell the production to a disinterested third party during this delay, your claim will be settled using the applicable DFCs for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- b. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- c. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- d. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- e. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- f. If the time to harvest has been extended as stated below, this option will not apply beyond 60 days after the calendar date for the EOIP.
- g. If you sell the production to a disinterested third party during this delay, your claim will be settled using the Reduction In Value (RIV) as outlined below, unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.

3. EXTENSION OF TIME TO HARVEST

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of insurance period (EOIP).

[illegible]

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Unit: 1000 bushels
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Cheyenne (017)

claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not harvest the crop.

4. DELAY IN MEASUREMENT OF FARM STORED PRODUCTION

Quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for indemnity. If a producer delays measurement of farm stored production for more than 60 days after the EOIP, the producer will not be eligible for indemnity on that production.

5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

If a producer delays delivery of production to a distant market for more than 60 days after the EOIP, the producer will not be eligible for indemnity on that production.

6. ZERO MARKET VALUE

If on the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be eligible for indemnity.

7. REDUCTION IN VALUE (RIV):

- Reduction in Value (RIV) is the difference between the actual value and the value that would have been realized had the production been sold to other than a disinterested third party, fed, utilized in any other manner, or when a pre-established DF is applicable.
- Moisture content;
 - Damage due to uninsured causes;
 - Drying;
 - Handling;
 - Processing; or
 - Other factors that affect the value of the production.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	U.S. No. 5 for Test Weight . 36.0 lbs. and above)
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Cheyenne (017)

- i. If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
- ii. If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
- iii. The RIV and local market price* are determined on the date such quality adjusted production is sold to a disinterested third party.
- iv. The RIV and local market price* are determined on the date such quality adjusted production is sold to a disinterested third party.

SECTION A - DISCOUNT FACTOR CHARTS

Barley will be discounted for grade as specified within the Quality Adjustment Tab located in the AD.

GRADE DISCOUNT:

Barley will be discounted for grade as specified within the Quality Adjustment Tab located in the AD.

TEST WEIGHT DISCOUNT:

Discounts for low test weight are as follows (U.S. No. 5 for Test Weight . 36.0 lbs. to 36.0 lbs.; U.S. Sample Grade . 36.0 lbs. and below):

Test Weight Pounds	DF
36 and above	None
35.99-30	See Quality Adjustment Tab for Discount Factors
Below 30	See section B

DAMAGE DISCOUNT:

Discounts for low test weight are as follows (U.S. No. 5 for Test Weight . 36.0 lbs. to 36.0 lbs.; U.S. Sample Grade . 36.0 lbs. and below):

Damage %	DF
10 and below	None
10.01-34	See Quality Adjustment Tab for Discount Factors
Above 34	See Section B

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: HMO [] A [] D []
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Cheyenne (017)

health agency of the applicable State in which the insured crop is grown, at a level determined as injurious to human or animal health, will be covered only if the appropriate samples of the production were obtained by our adjuster (or a trained disinterested third party approved by us) (except for flood-damaged grain), and the

[illegible]

For production that contains substances or conditions determined to be injurious to human or animal health, when applicable, adjustments will be made for levels of substances or conditions in excess of the amount allowed by the lower of the following:

- [illegible]

1. The DF will be the applicable DFs shown in the chart below (unless you elect to delay settlement as specified in the General Statements above) added to the applicable DFs included in sections A or B2 above.
- a. Unsold production or production sold to other than a disinterested third party prior to 60 days after the calendar date for the EOIP, the DF will be the applicable DFs shown in the chart below (unless you elect to delay settlement as specified in the General Statements above) added to the applicable DFs included in sections A or B2 above.
- b. For unsold production or production sold to other than a disinterested third party prior to 60 days after the calendar date for the EOIP, the DF will be the applicable DFs shown in the chart below (unless you elect to delay settlement as specified in the General Statements above) added to the applicable DFs included in sections A or B2 above.
- c. Unsold 60 days after the calendar date for the EOIP, fed, utilized in any other manner, or is sold to other than a disinterested third party, the DF will be the applicable DFs shown in the chart below added to the applicable DFs included in sections A or B3 above.

DFs for Vomitoxin:

Special Provisions 2026 and Succeeding Crop Years

County: Cheyenne (017)

Vomitoxin Range	DF
0.1 - 0.4 ppm	See Quality Adjustment Tab for Discount Factors
10.1 ppm & above	See C3 below

2. If the level of any of the substances or conditions with a level less than the maximum allowable, adjust the production in the following manner.

[illegible]

- i. all insurable quality deficiencies, and that value divided by the local market price.
- ii. C2b (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A or B2
- iii. $\frac{Q_i(A) \cdot [I_A | \tilde{a}^{\&}]}{\sum_j Q_j(A)} \cdot \frac{[A] \in \tilde{a}^{\&} \cdot \text{Sec}'(A \otimes S)}{\sum_j [A] \in \tilde{a}^{\&} \cdot \text{Sec}'(A \otimes S)}$
- iv. For unsold production containing all other mycotoxins or substances or conditions prior to 60 days after the calendar date for the EOIP (unless you
- v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500,

b. Q: A farmer has sold or fed grain from his farm's storage bins to other people. Is the grain he sold or fed to others "other than a disinterested third party?"

A: No. Grain that was sold or fed to other than a disinterested third party is not eligible for the credit.

- i. $\emptyset \mid \text{Applicable DFs in sections A or B2 above.}$
- ii. $\emptyset \mid \text{Applicable DFs in sections A or B2 above.}$
- iii. $\emptyset \mid \text{Applicable DFs in sections A or B3 above.}$

DFs for Aflatoxin:

Special Provisions 2026 and Succeeding Crop Years

Ùæ^kmo[| [:æ[Åè D

County: Cheyenne (017)

Aflatoxin Range	DF
0.0 - 1.0 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed

a. For production containing Aflatoxin or any other substances or conditions (except for production containing Vomitoxin as detailed in C3 a above), the DF will be:

i. .500 for production that was in on-farm storage and was later sold, was in on-farm storage and was transported to commercial storage and later sold, or was in on-farm storage and was later sold, was in on-farm storage and was transported to commercial storage and later sold, or was in on-farm storage and was later sold.

ii. .500 for production that was in on-farm storage and was later sold, was in on-farm storage and was transported to commercial storage and later sold, or was in on-farm storage and was later sold.

b. For production containing Aflatoxin or any other substances or conditions (except for production containing Vomitoxin as detailed in C3 a above), the DF will be:

i. .500 for production that was in on-farm storage and was later sold, was in on-farm storage and was transported to commercial storage and later sold, or was in on-farm storage and was later sold.

ii. .500 for production that was in on-farm storage and was later sold, was in on-farm storage and was transported to commercial storage and later sold, or was in on-farm storage and was later sold.

c. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period,

d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period,
