#### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

#### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

#### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.

- a. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- i. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- ii. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- b. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- i. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- ii. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- c. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
- d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

#### SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.

1. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
2. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
  - a. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
  - b. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.
  - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. If the level of flood waters is less than the level of flood waters that would result in a claim being paid, the claim will be paid based on the level of flood waters that would result in a claim being paid.

• If the crop is damaged by flood waters, the producer may elect to have the crop valued in the local market, or destroyed unless Section C3d applies. An automatic 30 day extension of time will be allowed for you to submit your claim for indemnity.

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-As a person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-Grain that does not meet the definition of %Sold.
