General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Premium

In accordance with section 6 of the Small Grains Crop Provisions, a reduced premium rate is provided for acreage intentionally destroyed before harvest by grazing or other means. To qualify for the reduced premium rate you must notify your agent no later than March 15.

Insurance Availability

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

For production that contains substances or conditions determined to be injurious to human or animal health, when applicable, adjustments will be made for levels of substances or conditions in excess of the amount allowed by the lower of the following:

- a. Vomitoxin only (no other Section C deficiencies are present) qualifying under section C and that has a level of 10.0 ppm or less, the DF will be the sum of all RIVs applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price.
- b. If sold to a disinterested third party prior to 60 days after the calendar date for the EOIP, the DF will be the sum of all RIVs applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price.
- c. A public health agency of the applicable State in which the insured crop is grown.

For production that will be stored on the farm, or in commercial storage (except for production containing Vomitoxin), the appropriate samples must be obtained prior to the calendar date for the EOIP, and the level of the substance or condition must be determined by a public health agency of the applicable State in which the insured crop is grown.

1. For production containing Vomitoxin only (no other Section C deficiencies are present) qualifying under section C and that has a level of 10.0 ppm or less, the DF will be the sum of all RIVs applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price.
 - a. Sold to a disinterested third party prior to 60 days after the calendar date for the EOIP, the DF will be the sum of all RIVs applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price.
 - b. If sold to a disinterested third party prior to 60 days after the calendar date for the EOIP, the DF will be the sum of all RIVs applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price.
 - c. Unsold 60 days after the calendar date for the EOIP, fed, utilized in any other manner, or is sold to other than a disinterested third party, the DF will be the applicable DFs shown in the chart below added to the applicable DFs included in sections A or B3 above.

DFs for Vomitoxin:

Vomitoxin Range	DF
0.1 ppm to 10.0 ppm	See Quality Adjustment Tab for Discount Factors
10.1 ppm & above	See C3 below

2. If the level of the substance or condition is greater than the maximum allowable, adjust the production in the following manner.
 - a. If the level of the substance or condition is greater than the maximum allowable, and the production is put into commercial storage without going into on farm storage, the DF will be:
 - i. For production sold to a disinterested third party prior to 60 days after the calendar date for the EOIP, the sum of all RIVs applied by the buyer due to all insurable quality deficiencies, and that value divided by the local market price.

disinterested third party; or

- ii. If the producer or landlord is not a disinterested third party, the production will be adjusted as follows:
 - a. If the production is less than the guaranteed production, the production will be adjusted as follows:
 - i. The production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - ii. If the production is greater than the guaranteed production, the production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - b. If the production is greater than the guaranteed production, the production will be adjusted as follows:
 - i. The production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - ii. If the production is greater than the guaranteed production, the production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - c. If the production is less than the guaranteed production, the production will be adjusted as follows:
 - i. The production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - ii. If the production is greater than the guaranteed production, the production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period, such production will not be adjusted for any deficiencies listed in Section C.

ZERO MARKET VALUE PRODUCTION

If the production is less than the guaranteed production, the production will be adjusted as follows:

1. The production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
2. If the production is greater than the guaranteed production, the production will be adjusted as follows:
 - a. For production in Section A, the pre-established DFs.
 - b. If the production is less than the guaranteed production, the production will be adjusted to the guaranteed production.
 - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. If the production is less than the guaranteed production, the production will be adjusted as follows:
 - i. The production will be adjusted to the guaranteed production if the production is less than the guaranteed production.
 - ii. If the production is greater than the guaranteed production, the production will be adjusted to the guaranteed production if the production is less than the guaranteed production.

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-A Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer
*****	%Unsold-A Grain that does not meet the definition of %Sold.
