General

Optional unit division is NOT available by section or section equivalent. Optional unit division is available based on Farm Serial Number (FSN) and any other method specified in the Basic Provisions or Crop Provisions except section or section equivalent. To be eligible for the available methods of optional unit division, you must meet all applicable requirements.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For the purpose of this section, the term "quality" means the quality of the crop as determined by the quality adjustment factors.

For the purpose of this section, the term "quality adjustment factors" means the factors that are used to determine the quality of the crop. The factors are listed in the Quality Adjustment Statement and are used to determine the quality of the crop. The factors are listed in the Quality Adjustment Statement and are used to determine the quality of the crop.

For the purpose of this section, the term "quality adjustment" means the adjustment of the quality of the crop based on the quality adjustment factors. The adjustment is made by adding or subtracting the quality adjustment factors from the quality of the crop.

For the purpose of this section, the term "qualifying for quality adjustment" means the crop must meet the requirements of the quality adjustment statement. The requirements are listed in the quality adjustment statement and are used to determine the quality of the crop.

For the purpose of this section, the term "extension of time to harvest" means the extension of time to harvest as specified in the quality adjustment statement. The extension is made by adding or subtracting the extension of time to harvest from the quality of the crop.

For the purpose of this section, the term "production qualifying under section B or C" means the production that is sold to other than a disinterested third party, or that is not sold 60 days after the end of the insurance period.

For the purpose of this section, the term "production qualifying under Sections B or C" means the production that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

For the purpose of this section, the term "production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health" means the production that is determined to be injurious to human or animal health.

 - a. $\frac{\text{Local Market Price} - \text{Disinterested Third Party Price}}{\text{Local Market Price} - \text{Zero Market Value}}$ of the pre-established DFs.
 - b. $\frac{\text{Local Market Price} - \text{Disinterested Third Party Price}}{\text{Local Market Price} - \text{Zero Market Value}}$
 - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. Grain will be considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer. If the grain is not sold by the date of the final settlement, the grain will be considered unsold. Grain that does not meet the definition of sold grain will be considered unsold grain. An automatic 30 day extension of time will be allowed for you to submit your claim for indemnity.

*	Local Market Price is defined in the applicable Basic, Crop, or these Provisions.
**	Disinterested third party is a person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	Zero market value occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	Sold Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	Unsold Grain that does not meet the definition of sold grain.
