T/P 6	Winter 011	Organic(Transitional) Irr. 712

#### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

#### Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

#### Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

## Special Provisions 2026 and Succeeding Crop Years

Year: 2026

Commodity: Wheat (0011)

Use: 0000 0000 0000 0000

Date: 6/17/2025

Plan: Yield Protection (01)

County: Genesee (049)

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

### Quality

#### GENERAL STATEMENTS:

For the purpose of this section, the following definitions apply:

For the purpose of this section, the following definitions apply:   
 The term "quality" means the quality of the crop as determined by the quality adjustment factors.   
 The term "quality adjustment factors" means the factors that are used to adjust the quality of the crop for the purpose of determining production to count.

For the purpose of this section, the following definitions apply:   
 The term "net production" means the production of the crop after the quality adjustment factors have been applied.   
 The term "net production to count" means the net production of the crop that is eligible for an indemnity.

For the purpose of this section, the following definitions apply:   
 The term "qualifying for quality adjustment" means the crop is eligible for an indemnity and the quality adjustment factors are applied.   
 The term "qualifying for quality adjustment" means the crop is eligible for an indemnity and the quality adjustment factors are applied.

For the purpose of this section, the following definitions apply:   
 The term "extension of time to harvest" means the period of time that is granted to the producer to harvest the crop.   
 The term "extension of time to harvest" means the period of time that is granted to the producer to harvest the crop.

For the purpose of this section, the following definitions apply:   
 The term "sold" means the crop is sold to a third party.   
 The term "sold" means the crop is sold to a third party.

For the purpose of this section, the following definitions apply:   
 The term "production qualifying under Sections B or C" means the production of the crop that is eligible for an indemnity.   
 The term "production qualifying under Sections B or C" means the production of the crop that is eligible for an indemnity.

For the purpose of this section, the following definitions apply:   
 The term "production qualifying for quality adjustment" means the production of the crop that is eligible for an indemnity.   
 The term "production qualifying for quality adjustment" means the production of the crop that is eligible for an indemnity.

- For the purpose of this section, the following definitions apply:   
 The term "production qualifying for quality adjustment" means the production of the crop that is eligible for an indemnity.   
 The term "production qualifying for quality adjustment" means the production of the crop that is eligible for an indemnity.
- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- For the purpose of this section, the following definitions apply:   
 The term "production qualifying for quality adjustment" means the production of the crop that is eligible for an indemnity.   
 The term "production qualifying for quality adjustment" means the production of the crop that is eligible for an indemnity.

County: Genesee (049)

Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.

- a. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- i. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- ii. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- b. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- i. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- ii. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- c. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
- d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

### SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.

1. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
2. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
  - a. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
  - b. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
  - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. If the level of loss is less than the level of loss allowed, the claim will be adjusted for any quality deficiencies listed in Section C.
