General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Type

- *4 The Oregon State University variety "Goetze" will be insured as a winter type if planted prior to January 26. If this variety is planted on or after January 26 it will be insured as a spring type.

Date

- *5 If you have selected the winter coverage endorsement (WCE) for acreage planted to the winter type, the following dates applicable to your policy are specified in the 'Options' section within the 'Dates' tab of the Actuarial Information Browser:
- 1) The final planting date (the WCE will not be applicable to acreage planted after this date) and
 - 2) The acreage reporting date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: 0001*
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Benton (003)

*8 Insurance shall not attach or be considered to have attached without a written agreement to a planted non-irrigated crop on acreage from which, in the same calendar year:

- 1) A perennial hay crop was harvested; or
- 2) A crop (other than a cover crop) reached the headed or budded stage prior to termination, regardless of the percentage of plants that reached the headed or budded stage;

Termination means growth has ended. To qualify for a written agreement, you must provide a minimum of the most recent three years of your double cropping actual production history for the crop in the county. A cover crop is one that meets the criteria outlined in the Insurance Availability section of these Special Provisions.

Quality

GENERAL STATEMENTS:

For the purpose of this section, the following definitions apply:

Net Production: The net production of a crop is the total production of the crop, less the production of any other crops that are considered in determining production to count.

Net Production to Count: The net production of a crop, less the production of any other crops that are considered in determining production to count, and less the production of any other crops that are considered in determining production to count.

Qualifying for Quality Adjustment: Qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the following provisions:

Quality Adjustment: The AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

Quality Adjustment: Any production qualifying under section B or C (except for section C3) that is sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the end of the insurance period, shall be considered as sold for the purpose of this section.

Quality Adjustment: Production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

Special Provisions
2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Unit: MU/acre
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Benton (003)

For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the following:

- a. If the producer elects to delay claim settlement, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- b. Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- c. If the producer elects to delay claim settlement, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.

1.

1. OPTION TO DELAY CLAIM SETTLEMENT

- a. On the date of final inspection for the unit, if any of your unsold**** production qualifies for quality adjustment under sections B and/or C1 or C2a ii and C2a iv below, your claim will be settled using the applicable DF's for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- b. If the producer elects to delay claim settlement, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- c. If the producer elects to delay claim settlement, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- d. For any production sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- e. If the producer elects to delay claim settlement, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- f. If the producer elects to delay claim settlement, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- g. If the producer elects to delay claim settlement, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.

2.

2. SECTION 14(e) OF THE BASIC PROVISIONS

Under the provisions of section 14(e) of the Basic Provisions, the statement does not supersede the provisions contained in section 14 (e) in the Basic Provisions.

3. EXTENSION OF TIME TO HARVEST

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: 0001	AP FD
Date: 6/17/2025	Plan: Yield Protection (01)	County: Benton (003)	
	Revenue Protection (02)		
	Revenue Prot with Harvest Price Exclusion (03)		

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period (EOIP).

Q We determine you are prevented from harvesting by the calendar date for the EOIP due to an insurable cause of damage that occurred during the insurance period and we allow an extension of time to harvest, the time to determine insurable quality deficiencies will also be extended to 60 days after the EOIP. All samples for QA { ~ o s A a ^ } A [d e c ^ / A @ ^ A e s e . A e c ^ / A @ O U Q E A [~ A e c ^ . o c @ & [] A i q / A t A e s e . If you elect to delay measurement of farm stored production as provided in the Basic Provisions, all samples of farm stored production used to determine insurable quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for payment.

5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

[illegible]

6. ZERO MARKET VALUE

On the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be
market value, except for production fed or used in any other manner.

7. REDUCTION IN VALUE (RIV):

ÜQ•Á ~ •œ^Á^æ [} æ| ^Ē • æĒæ a& • { æ ^Ē [ÄÜQÁ a|Á^Á æ^Á |Á&^ c^aÁ^ Á • Á/Á/Á^ ^Á K

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: 0001	AC FD
Date: 6/17/2025	Plan: Yield Protection (01)		County: Benton (003)
	Revenue Protection (02)		
	Revenue Prot with Harvest Price Exclusion (03)		

- a. Moisture content;
- b. Damage due to uninsured causes;
- c. Drying;
- d. Handling;
- e. Processing; or
- f. Any other costs associated with normal harvesting, handling, and marketing of your production.
 - i. RIVs cannot be used in combination with chart DFs.
 - ii. $\frac{Q_{\text{local}}}{Q_{\text{local}} + Q_{\text{distant}}} \times \text{RIV}_{\text{local}} \leq \text{RIV}_{\text{distant}}$ production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
 - iii. $\frac{Q_{\text{local}}}{Q_{\text{local}} + Q_{\text{distant}}} \times \text{RIV}_{\text{local}} \leq \text{RIV}_{\text{distant}}$ exceed the RIV before conditioning.
 - iv. $\frac{Q_{\text{local}}}{Q_{\text{local}} + Q_{\text{distant}}} \times \text{RIV}_{\text{local}} \leq \text{RIV}_{\text{distant}}$

DFs for Aflatoxin:

Aflatoxin Range	DF
0.0 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
 - a. If the level of Aflatoxin is greater than 300 ppb, the claimant must provide evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss.
 - i. If the claimant provides evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss, the claimant must provide evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss.
 - ii. If the claimant provides evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss, the claimant must provide evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss.
 - b. If the level of Aflatoxin is greater than 300 ppb, the claimant must provide evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss.
 - i. If the claimant provides evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss, the claimant must provide evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss.
 - ii. If the claimant provides evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss, the claimant must provide evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss.
 - c. If the level of Aflatoxin is greater than 300 ppb, the claimant must provide evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss.
 - i. If the claimant provides evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss, the claimant must provide evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss.
 - ii. If the claimant provides evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss, the claimant must provide evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss.
 - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of Aflatoxin is greater than 300 ppb, the claimant must provide evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss.

1. If the claimant provides evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss, the claimant must provide evidence that the production was sold, fed, utilized in any other manner, or destroyed within 365 days of the date of the loss.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: 0001
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Benton (003)

2. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
 - a. $\frac{Q}{A} \times \frac{P}{A} \times \frac{D}{A}$ the pre-established DFs.
 - b. $\frac{Q}{A} \times \frac{P}{A} \times \frac{D}{A}$
 - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. Grain will be considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer. Grain that does not meet the definition of sold grain will be considered unsold grain. An automatic 30 day extension of time will be allowed for you to submit your claim for indemnity.

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-As a person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold Grain that does not meet the definition of %Sold Grain.
