General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

1. **QUALITY ADJUSTMENT STATEMENT (QAS)**

QAS quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for payment. The QAS must be obtained from a qualified entity, such as a grain elevator, and must be obtained before the production is sold, fed, or used in any other manner. The QAS must be obtained before the production is sold, fed, or used in any other manner. The QAS must be obtained before the production is sold, fed, or used in any other manner.

5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

When a producer elects to deliver production to a distant market, the producer must provide a fair consideration to the distant market. The fair consideration must be at least the market value of the production at the time of delivery, less any transportation and handling costs. The fair consideration must be at least the market value of the production at the time of delivery, less any transportation and handling costs.

6. ZERO MARKET VALUE

If on the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be eligible for payment. The production must be determined to have zero market value by a qualified entity, such as a grain elevator, and must be determined before the production is sold, fed, or used in any other manner.

7. REDUCTION IN VALUE (RIV):

The RIV is the difference between the market value of the production and the fair consideration to the distant market.
